Australian/New Zealand Standard™

Safe working on or near low-voltage electrical installations and equipment

AS/NZS 4836:2011

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL-044, Safe Working on Low-voltage Electrical Installations. It was approved on behalf of the Council of Standards Australia on 22 March 2011 and on behalf of the Council of Standards New Zealand on 1 April 2011. This Standard was published on 4 May 2011.

The following are represented on Committee EL-044:

Australasian Railway Association Australian Council of Trade Unions Australian Industry Group Communications Electrical and Plumbing Union Department of Building and Housing (New Zealand) Department of Industry and Investment New South Wales Department of Justice and Attorney General, Queensland Electrical Contractors Association of New Zealand Electrical Institute (New Zealand) Electrical Safety Organisation (New Zealand) Electricity Association of New South Wales Electricity Standards & Safety (Tasmania) Energy Safe Victoria Energy Safety WA Hunter Industry Safety Network National Electrical and Communications Association NSW Office of Fair Trading Department of Commerce Telstra Corporation WorkCover NSW

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.saiglobal.com or Standards New Zealand web site at www.standards.govt.nz and looking up the relevant Standard in the online catalogue.

For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of Standards Australia or the New Zealand Standards Executive at the address shown on the back cover.

This Standard was issued in draft form for comment as DR 10021.

AS/NZS 4836:2011 (Incorporating Amendment No. 1)

Australian/New Zealand Standard™

Safe working on or near low-voltage electrical installations and equipment

First published as AS/NZS 4836:2001. Second edition 2011. Reissued incorporating Amendment No. 1 (May 2017).

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee EL-044, Safe Working on Low-voltage Electrical Installations to supersede AS/NZS 4836:2001, Safe working on low-voltage electrical installations.

This Standard incorporates Amendment No. 1 (May 2017). The changes required by the Amendment are indicated in the text by a marginal bar and amendment number against the clause, note, table, figure or part thereof affected.

The objective of this Standard is to provide workers on low-voltage electrical installations and equipment with—

- (a) the principles of safe working practices; and
- (b) recommended procedures for safe working practices.

This edition of AS/NZS 4836 contains additional information on the following:

- (i) Principles of risk management, assessment of risk and risk treatment.
- (ii) Working with asbestos and PCBs.
- (iii) Working below ground level.
- (iv) Cutting cables and wiring enclosures.
- (v) Selection and use of test equipment.
- (vi) Selection and use of personal protective equipment (Table 9.2).
- (vii) Preservation of an incident scene.

The term 'informative' has been used in this Standard to define the application of the appendix to which it applies. An 'informative' appendix is only for information and guidance.
