

## Australian/New Zealand Standard™

### Safety of machinery

### Part 1907: Displays, controls, actuators and signals—System of auditory and visual danger and information signals

*AS/NZS 4024.1907:2014, Safety of machinery – Part 1907: Displays, controls, actuators and signals—System of auditory and visual danger and information signals, is an identical adoption of EN 981:1996+A1:2008, Safety of machinery—System of auditory and visual danger and information signals, and is reproduced with the permission of CEN, Avenue Marnix 17, B-1000 Brussels, Belgium. All exploitation rights of the European Standards in any form and by any means are reserved world-wide to CEN and its National Members, and no reproduction may be undertaken without express permission in writing by CEN through Standards Australia Limited and/or Standards New Zealand.*

## **AS/NZS 4024.1907:2014**

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee SF-041, General Principles for the Guarding of Machinery. It was approved on behalf of the Council of Standards Australia on 5 June 2014 and on behalf of the Council of Standards New Zealand on 24 April 2014. This Standard was published on 30 June 2014.

---

The following are represented on Committee SF-041:

Australian Chamber of Commerce and Industry  
Australian Industry Group  
Australian Manufacturing Workers Union  
Department of Mines and Petroleum, WA  
Department of the Premier and Cabinet, SA  
Engineers Australia  
Federal Chamber of Automotive Industries  
Human Factors and Ergonomics Society of Australia  
Institute of Instrumentation, Control and Automation  
National Safety Council of Australia  
New Zealand Electrical Institute  
NSW Department of Trade and Investment, Regional Infrastructure and Services  
Safety Institute of Australia  
University of Melbourne  
Winery Engineering Association  
WorkCover New South Wales  
WorkSafe NZ  
WorkSafe Victoria

### **Keeping Standards up-to-date**

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Australia Web Site at [www.standards.org.au](http://www.standards.org.au) or Standards New Zealand web site at [www.standards.co.nz](http://www.standards.co.nz) and looking up the relevant Standard in the on-line catalogue.

For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

---

*This Standard was issued in draft form for comment as DR AS/NZS 4024.1907.*
