

Australian/New Zealand Standard™

Personal eye protection

**Part 0: Eye and face protection—
Vocabulary (ISO 4007:2012, MOD)**

AS/NZS 1337.0:2014

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee SF-006, Eye and Face Protection. It was approved on behalf of the Council of Standards Australia on 20 November 2014 and on behalf of the Council of Standards New Zealand on 13 November 2014.
This Standard was published on 12 December 2014.

The following are represented on Committee SF-006:

Association of Accredited Certification Bodies
Australasian Fire and Emergency Service Authorities Council
Australian Chamber of Commerce and Industry
Australian Dispensing Opticians Association
Australian Industry Group
Economic Development Agencies of New Zealand
Human Factors and Ergonomics Society of Australia
New Zealand Association of Optometrists
New Zealand Optical Wholesalers Association
Optical Distributors and Manufacturers Association of Australia
Optometrists Association Australia
Queensland University of Technology
TestSafe Australia
University of Auckland
University of New South Wales
Welding Technology Institute of Australia

Keeping Standards up-to-date

Standards are living documents which reflect progress in science, technology and systems. To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Web Shop at www.saiglobal.com.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue.

For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comments to the Chief Executive of either Standards Australia or Standards New Zealand at the address shown on the back cover.

PREFACE

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee SF-006, Eye and Face Protection, to supersede AS/NZS 1337.0(Int):2010, *Personal eye protection, Part 0: Eye and face protectors—Vocabulary*.

The objective of this Standard is to provide terms and definitions for eye and face protectors. Additional terms specifically used in AS/NZS 1337.1, which are not defined in this Standard, are defined in AS/NZS 1337.1.

This Standard is an adoption with national modifications and has been reproduced from ISO 4007:2012, *Personal protective equipment—Eye and face protection—Vocabulary*, and has been varied as indicated to take account of Australian/New Zealand conditions. The modifications are specified in Appendix ZZ.

As this Standard is reproduced from an International Standard, the following applies:

- (a) In the source text ‘this International Standard’ should read ‘this Australian/New Zealand Standard’.
- (b) A full point substitutes for a comma when referring to a decimal marker.

The terms ‘normative’ and ‘informative’ are used to define the application of the annex or appendix to which they apply. The ‘normative’ appendix is an integral part of a Standard, whereas the ‘informative’ annex is only for information and guidance.

CONTENTS

1	Scope	1
2	Terms relating to hazards	2
3	Terms relating to optical radiation and sources of radiation	3
3.1	Terms relating to optical radiation	3
3.2	Terms relating to sources of non-ionising radiation	7
4	Photometric terms	13
5	Terms relating to eye and face protection	20
5.1	General terms	20
5.2	Terms relating to the geometrical properties of eye and face protection	27
5.3	Terms relating to the non-ocular part of eye and face protection	31
5.4	Terms relating to welding protection⁴⁾	33
5.5	Terms relating to secondary oculars	34
6	Terms relating to optical materials	36
7	Terms relating to optical properties of components and oculars	39
8	Terms relating to the optical properties of oculars, excluding transmittance	44
8.1	Terms relating to the oculars	44
8.2	Terms relating to the eye and eye-protectors	51
9	Terms relating to filters	53
9.1	General terms	53
9.2	Terms relating to polarized light and polarizing filters	70
9.3	Terms relating to welding filters	74
10	Terms relating to test equipment	80
11	Glossary of abbreviations and symbols	83
	Annex A (informative) Spectral weighting functions and spectral distributions	86
	Bibliography	100
	Alphabetical index	102
