(IEC 60335-2-14:2002, MOD)

Australian/New Zealand Standard™

HOUSEHOLD AND SIMILAR
ELECTRICAL APPLIANCES –
SAFETY –

Part 2.14: Particular requirements
for kitchen machines

AS/NZS 60335.2.14:2004

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee EL-002- Safety of Household and Similar Electrical Appliances and Small Power Transformers. It was approved on behalf of the Council of Standards Australia on 18 March 2004 and by the Council of Standards New Zealand on 26 March 2004. It was published on 31 May 2004.

The following interests are represented on Committee EL-002

Australian Industry Group

Australian Retailers Association

Australian Electrical and Electronic Manufacturers Association

Business New Zealand

Consumer Electronic Suppliers Association, Australia

Consumers' Federation of Australia

Electrical regulatory authorities, Australia

Electrical Compliance Testing Association

Electrical consultants

Electricity Supply Association of Australia

Ministry of Consumer Affairs, New Zealand

Keeping Standards up-to-date

Standards are living documents, which reflect progress in science, technology and systems.

To maintain their currency, all Standards are periodically reviewed, and new editions are published. Between editions, amendments may be issued. Standards may also be withdrawn. It is important that readers assure themselves they are using a current Standard, which should include any amendments which may have been published since the Standard was purchased.

Detailed information about joint Australian/New Zealand Standards can be found by visiting the Standards Australia web site at www.standards.org.au or Standards New Zealand web site at www.standards.co.nz and looking up the relevant Standard in the on-line catalogue. Alternatively, both organizations publish an annual printed Catalogue with full details of all current Standards. For more frequent listings or notification of revisions, amendments and withdrawals, Standards Australia and Standards New Zealand offer a number of update options. For information about these services, users should contact their respective national Standards organization.

We also welcome suggestions for improvement in our Standards, and especially encourage readers to notify us immediately of any apparent inaccuracies or ambiguities. Please address your comment to the Chief Executive of either Standards Australia International or Standards New Zealand at the address shown on the back cover.

This standard was issued in draft form for comment as DR 03935

CONTENTS

FOREWORD.....	4
INTRODUCTION.....	6
1 Scope	7
2 Normative references	8
3 Definitions.....	8
4 General requirement.....	11
5 General conditions for the tests	11
6 Classification.....	11
7 Marking and instructions	11
8 Protection against access to live parts	12
9 Starting of motor-operated appliances.....	12
10 Power input and current.....	12
11 Heating	12
12 Void	14
13 Leakage current and electric strength at operating temperature	14
14 Transient overvoltages	14
15 Moisture resistance	14
16 Leakage current and electric strength	15
17 Overload protection of transformers and associated circuits	15
18 Endurance.....	15
19 Abnormal operation	15
20 Stability and mechanical hazards	16
21 Mechanical strength	21
22 Construction.....	21
23 Internal wiring.....	21
24 Components	21
25 Supply connection and external flexible cords	22
26 Terminals for external conductors	22
27 Provision for earthing.....	23
28 Screws and connections	23
29 Clearances, creepage distances and solid insulation	23
30 Resistance to heat and fire	23
31 Resistance to rusting	23
32 Radiation, toxicity and similar hazards	23

Annexes	26
Annex C (normative) Aging test on motors.....	26
Annex ZZ (informative) Variations to IEC 60335-2-14:2002 for application in Australia and New Zealand.....	28
Bibliography	27
Figure 101 – Slicing machine	24
Figure 102 – Protecting devices for slicing machines	25
