

AS/NZS 1530.7:1998

Australian/New Zealand Standard™

Methods for fire tests on building materials, components and structures

Part 7: Smoke control door and shutter assemblies—Ambient and medium temperature leakage test procedure

AS/NZS 1530.7:1998

This Joint Australian/New Zealand Standard was prepared by Joint Technical Committee BD/18, Fire Safety. It was approved on behalf of the Council of Standards Australia on 14 August 1998 and on behalf of the Council of Standards New Zealand on 28 August 1998. It was published on 5 November 1998.

The following interests are represented on Committee BD/18:

Australasian Fire Authorities Council
Australian Building Codes Board
Australian Chamber of Commerce and Industry
Australian Institute of Building
Australian Wool Testing Authority
Building Research Association of New Zealand
Bureau of Steel Manufacturers of Australia
Cement and Concrete Association of Australia
CSIRO Building, Construction and Engineering
Forest and Wood Products Research and Development Corporation
Fire Protection Association, New Zealand
FPA Australia
Plastics and Chemicals Industries Association Incorporated
Scientific Services Laboratory—A Business Unit of AGAL
Society of Fire Protection Engineers, New Zealand

Additional interests participating in preparation of Standard:

Testing interests (Australia)

Review of Standards. To keep abreast of progress in industry, Joint Australian/New Zealand Standards are subject to periodic review and are kept up to date by the issue of amendments or new editions as necessary. It is important therefore that Standards users ensure that they are in possession of the latest edition, and any amendments thereto.

Full details of all Joint Standards and related publications will be found in the Standards Australia and Standards New Zealand Catalogue of Publications; this information is supplemented each month by the magazines 'The Australian Standard' and 'Standards New Zealand', which subscribing members receive, and which give details of new publications, new editions and amendments, and of withdrawn Standards.

Suggestions for improvements to Joint Standards, addressed to the head office of either Standards Australia or Standards New Zealand, are welcomed. Notification of any inaccuracy or ambiguity found in a Joint Australian/New Zealand Standard should be made without delay in order that the matter may be investigated and appropriate action taken.
