AS/NZS IEC 60601.2.39:2022 IEC 60601-2-39:2018

Australian/New Zealand Standard™

Medical electrical equipment

Part 2.39: Particular requirements for basic safety and essential performance of peritoneal dialysis equipment

AS/NZS IEC 60601.2.39:2022

This Joint Australian/New Zealand Standard[™] was prepared by Joint Technical Committee HE-003, Medical Electrical Equipment. It was approved on behalf of the Council of Standards Australia on 6 April 2022 and by the New Zealand Standards Approval Board on 4 May 2022.

This Standard was published on 20 May 2022.

The following are represented on Committee HE-003:

AusBiotech

Australasian College of Physical Scientists and Engineers in Medicine

Australian & New Zealand College of Anaesthetists

Australian College of Perioperative Nurses

Australian Dental Association

Australian Radiation Protection and Nuclear Safety Agency

Australian Society of Anaesthetists

Certification Body Australia (Certification Interests Australia)

College of Biomedical Engineering Engineers Australia

Department of Defence (Australian Government)

Engineers Australia

Medical Technology Association of Australia

Medical Technology Association of New Zealand

MidCentral District Health Board

National Clinical Engineering Managers Forum (For District Health Boards)

Queensland Health

Therapeutic Goods Administration

WorkSafe New Zealand

This Standard was issued in draft form for comment as DR AS/NZS IEC 60601.2.39:2022.

Preface

This Standard was prepared by the Joint Standards Australia/Standards New Zealand Committee HE-003, Medical Electrical Equipment, to supersede AS/NZS 3200.2.39:2001, *Medical electrical equipment, Part 2.39: Particular requirements for safety — Peritoneal dialysis equipment.*

The objective of this document is to specify requirements for the basic safety and essential performance of peritoneal dialysis ME equipment (PD equipment).

It applies to PD equipment intended for use either by medical staff or under the supervision of medical experts, including PD equipment operated by the patient, regardless of whether it is used in a hospital or domestic environment.

This document can also be applied to PD equipment used for compensation or alleviation of disease, injury or disability.

This document does not apply to the dialysing solution, or the dialysing solution circuit.

This document is identical with, and has been reproduced from, IEC 60601-2-39:2018, *Medical electrical equipment* — *Part 2-39: Particular requirements for basic safety and essential performance of peritoneal dialysis equipment.*

As this document has been reproduced from an International document, a full point substitutes for a comma when referring to a decimal marker.

Australian or Australian/New Zealand Standards that are identical adoptions of international normative references may be used interchangeably. Refer to the online catalogue for information on specific Standards.

The terms "normative" and "informative" are used in Standards to define the application of the appendices or annexes to which they apply. A "normative" appendix or annex is an integral part of a Standard, whereas an "informative" appendix or annex is only for information and guidance.

This is a free page sample. Access the full version online.
