

CODE FOR PRESSURE PIPING

FUEL GAS PIPING

USAS B31.2-1968

USAS B31.2-1968 was withdrawn as an American National Standard on February 18, 1988. ASME will continue to make available USAS B31.2-1968 as a historical document for a period of time.

Foreword

THE need for a national code for pressure piping became increasingly evident from 1915 to 1925. To meet this need, the American Engineering Standards Committee (later changed to American Standards Association and then to United States of America Standards Institute) initiated Project B31 in March, 1926, at the request of the American Society of Mechanical Engineers and with that Society as the sole administrative sponsor. Because of the wide field involved, Standards Committee B31 was composed of representatives of some 40 different engineering societies, industries, government bureaus, institutes, and trade associations. After several years work, the first edition was published in 1935 as an American Tentative Standard Code for Pressure Piping.

In order to keep the code abreast of current developments in piping design, welding, stress computations, new dimensional and material standards and specifications and increases in the severity of service conditions, revisions, supplements and new editions of the code have been published as follows:

- B31.1 – 1942 American Standard Code for Pressure Piping
 - 1942 Procedure established for handling interpretation of code requirements
- B31.1a – 1944 Supplement 1
- B31.1b – 1947 Supplement 2
- B31.1 – 1951 American Standard Code for Pressure Piping
- B31.1a – 1953 Supplement 1 to B31.1 – 1951
- B31.1 – 1955 American Standard Code for Pressure Piping

After a review by B31 Executive and Standards Committees in 1955, a decision was made to develop and publish industry sections as separate code documents of the USA Standard B31 Code for Pressure Piping. Section 2 of B31.1-1955 was revised extensively (in title, scope, format and contents) and approved by USASI on December 12, 1968 as USAS B31.2-1968, Fuel Gas Piping.

Standards Committee B31 Code for Pressure Piping*

OFFICERS

E. C. Pandorf, *Chairman*
J. A. Casner, *Vice Chairman*
P. L. Daley, *Vice Chairman*
R. V. Warrick, *Secretary*

STANDARDS COMMITTEE

AIR CONDITIONING AND REFRIGERATING INSTITUTE

R. L. Jones, Carrier Air Conditioning Company, Syracuse, New York
F. J. Reed, Alt., Air Conditioning & Refrigerating Institute, Arlington, Virginia

ALLOY CASTING INSTITUTE

J. W. Juppenlatz, Quaker Alloy Casting Company, Myerstown, Pennsylvania
E. A. Schoefer, Alt., Alloy Casting Institute, New York, New York

AMERICAN BOILER MANUFACTURERS ASSOCIATION

B. J. Round, Combustion Engineering, Inc., Windsor Connecticut

AMERICAN BUREAU OF SHIPPING

J. W. Heck, American Bureau of Shipping, New York, New York
E. G. Baker, Alt., American Bureau of Shipping, New York, New York

AMERICAN GAS ASSOCIATION

J. H. Carson, Con-Gas Service Corporation, Pittsburgh, Pennsylvania
A. H. Cramer, Michigan Consolidated Gas Company, Detroit, Michigan
J. H. Miller, Public Service Electric & Gas Company, Newark, New Jersey
A. J. Shoup, Texas Eastern Transmission Corporation, Shreveport, Louisiana
R. D. Smith, Pacific Gas & Electric Company, San Francisco, California

AMERICAN INSTITUTE OF CHEMICAL ENGINEERS

R. S. Roberts, E. I. DuPont De Nemours & Company, Inc., Wilmington, Delaware

AMERICAN INSTITUTE OF MINING, METALLURGICAL AND PETROLEUM ENGINEERS

E. A. Jonas, Bethlehem Steel Company, Bethlehem, Pennsylvania
H. S. Blumberg, New York, New York

AMERICAN INSURANCE ASSOCIATION

J. H. Beauchamp, American Fore Loyalty Group, New York, New York

AMERICAN IRON AND STEEL INSTITUTE

W. M. Neckerman Jr., Tubular Products, Youngstown, Ohio
P. L. Daley, United States Steel Corporation, Pittsburgh, Pennsylvania

AMERICAN PETROLEUM INSTITUTE

Division of Production

J. W. Squire, Service Pipe Line Company, Tulsa, Oklahoma
J. E. Ubben, Alt., American Petroleum Institute, Dallas, Texas

Division of Refining

J. P. Mooney, Humble Oil & Refining Company, Baytown, Texas
D. W. Motter, Esso Research & Engineering Company, Florham Park, New Jersey
J. D. Manney, Alt., American Petroleum Institute, New York, New York
N. J. Rees, Alt., Socony Mobil Oil Company, New York, New York

Division of Science and Technology

E. O. Mattocks, Alt., American Petroleum Institute, New York, New York

Division of Transportation

O. W. Heyden, Shell Pipe Line Corporation, Houston, Texas
R. F. Moore, Platte Pipe Line Company, Kansas City, Missouri
B. H. Lord Jr., Alt., American Petroleum Institute, Washington, D.C.

*The personnel lists with exception of B31.2, show the officers and the membership as of May 1965.
