Mechanical Engineers

ASME PTC 2-2001
[Revision of ASME PTC 2-1980 (R1985)]

**DEFINITIONS
AND VALUES**

PERFORMANCE TEST CODES

An American National Standard

**The American Society of
Mechanical Engineers**

Date of Issuance: December 31, 2002

The next edition of this Code is scheduled for publication in 2006. There will be no addenda issued to this edition.

ASME issues written replies to inquiries concerning interpretations of technical aspects of this Code. Interpretations are published on the ASME Web site under the Committee Pages at <http://www.asme.org/codes/> as they are issued.

ASME is the registered trademark of The American Society of Mechanical Engineers.

This code or standard was developed under procedures accredited as meeting the criteria for American National Standards. The Standards Committee that approved the code or standard was balanced to assure that individuals from competent and concerned interests have had an opportunity to participate. The proposed code or standard was made available for public review and comment that provides an opportunity for additional public input from industry, academia, regulatory agencies, and the public-at-large.

ASME does not "approve," "rate," or "endorse" any item, construction, proprietary device, or activity.

ASME does not take any position with respect to the validity of any patent rights asserted in connection with any items mentioned in this document, and does not undertake to insure anyone utilizing a standard against liability for infringement of any applicable letters patent, nor assume any such liability. Users of a code or standard are expressly advised that determination of the validity of any such patent rights, and the risk of infringement of such rights, is entirely their own responsibility.

Participation by federal agency representative(s) or person(s) affiliated with industry is not to be interpreted as government or industry endorsement of this code or standard.

ASME accepts responsibility for only those interpretations of this document issued in accordance with the established ASME procedures and policies, which precludes the issuance of interpretations by individuals.

No part of this document may be reproduced in any form,
in an electronic retrieval system or otherwise,
without the prior written permission of the publisher.

CONTENTS

Foreword		v
Committee Roster		vii
1	Object and Scope	1
	1.1 Object	1
	1.2 Scope	1
2	Measurement of Performance	2
	2.1 Introduction	2
	2.2 Measurement System	2
	2.3 Uncertainty of Measuring Systems	2
	2.4 Intrinsic Accuracy	3
	2.5 In Situ Conditions	3
	2.6 Observation Accuracy	3
	2.7 Sensing Accuracy	3
3	Definitions	5
	3.1 Primary Definitions and Systems of Units	5
	3.2 Historical Definitions of Units of Measure	5
	3.3 Definitions for Use	6
4	Letter Symbols	14
	4.1 Introduction	14
	4.2 Preferred Letter Symbols	14
	4.3 Special Principles of Letter Symbol Standardization	14
	4.4 Description of Terms	15
5	Common Conversion Factors	17
Figures		
	2.2 Measuring System	3
	3.3 Enthalpy-Entropy Diagram for Water	12
Tables		
	5.1 Conversion to SI (Metric) Units	18
	5.2 Conversion Factors for Pressure (force/area)	20
	5.3 Conversion Factors for Specific Volume (volume/mass)	21
	5.4 Conversion Factors for Specific Enthalpy and Specific Energy (energy/ mass)	22
	5.5 Conversion Factors for Specific Entropy, Specific Heat, and Gas Constant (energy/mass \times temperature)	23
	5.6 Conversion Factors for Viscosity (force \times time/area \sim mass/length \times time)	24
	5.7 Conversion Factors for Kinematic Viscosity (area/time)	25

5.8	Conversion Factors for Thermal Conductivity (energy/ time × length × temp. diff. ~ power/length × temp. diff.)	26
-----	---	----

Nonmandatory Appendices

A	Sources of Fluid and Material Data	27
B	Units of Measure for ASME Performance Test Codes	28
