ASME CSD-1–2012
(Revision of ASME CSD-1–2009)

Controls and Safety Devices for Automatically Fired Boilers

AN AMERICAN NATIONAL STANDARD

**The American Society of
Mechanical Engineers**

Three Park Avenue • New York, NY • 10016 USA

Date of Issuance: May 10, 2012

The next edition of this Standard is scheduled for publication in 2014.

ASME issues written replies to inquiries concerning interpretations of technical aspects of this Standard. Periodically certain actions of the ASME CSDAFB Committee may be published as Cases. Cases and interpretations are published on the ASME Web site under the Committee Pages at <http://cstools.asme.org/> as they are issued. Interpretations are also included with each edition.

Errata to codes and standards may be posted on the ASME Web site under the Committee Pages to provide corrections to incorrectly published items, or to correct typographical or grammatical errors in codes and standards. Such errata shall be used on the date posted.

The Committee Pages can be found at <http://cstools.asme.org/>. There is an option available to automatically receive an e-mail notification when errata are posted to a particular code or standard. This option can be found on the appropriate Committee Page after selecting “Errata” in the “Publication Information” section.

ASME is the registered trademark of The American Society of Mechanical Engineers.

This code or standard was developed under procedures accredited as meeting the criteria for American National Standards. The Standards Committee that approved the code or standard was balanced to assure that individuals from competent and concerned interests have had an opportunity to participate. The proposed code or standard was made available for public review and comment that provides an opportunity for additional public input from industry, academia, regulatory agencies, and the public-at-large.

ASME does not “approve,” “rate,” or “endorse” any item, construction, proprietary device, or activity.

ASME does not take any position with respect to the validity of any patent rights asserted in connection with any items mentioned in this document, and does not undertake to insure anyone utilizing a standard against liability for infringement of any applicable letters patent, nor assumes any such liability. Users of a code or standard are expressly advised that determination of the validity of any such patent rights, and the risk of infringement of such rights, is entirely their own responsibility.

Participation by federal agency representative(s) or person(s) affiliated with industry is not to be interpreted as government or industry endorsement of this code or standard.

ASME accepts responsibility for only those interpretations of this document issued in accordance with the established ASME procedures and policies, which precludes the issuance of interpretations by individuals.

No part of this document may be reproduced in any form,
in an electronic retrieval system or otherwise,
without the prior written permission of the publisher.

CONTENTS

| | |
|--|------|
| Foreword | v |
| Committee Roster | vi |
| Correspondence With the CSDAFB Committee | vii |
| Summary of Changes | viii |
| Part CG General | 1 |
| CG-100 General Requirements | 1 |
| CG-200 General Provisions | 2 |
| CG-300 Material Requirements | 2 |
| CG-400 Testing and Maintenance | 2 |
| CG-500 Certification and Reporting | 3 |
| CG-600 Operation | 3 |
| CG-700 Definitions | 3 |
| Part CM Testing and Maintenance | 9 |
| CM-100 Periodic Testing and Maintenance | 9 |
| Part CE Electrical | 10 |
| CE-100 Electrical Requirements | 10 |
| Part CW Steam and Waterside Control | 12 |
| CW-100 Automatic Low-Water Fuel Cutoff and/or Combined Water Feeding Device | 12 |
| CW-200 Automatic Fuel Cutoff for Forced Circulation Boilers | 14 |
| CW-300 Pressure Controls | 14 |
| CW-400 Temperature Controls | 15 |
| CW-500 Safety and Safety Relief Valves | 15 |
| CW-600 Modular Boilers | 15 |
| CW-700 Vacuum Boilers | 16 |
| Part CF Combustion Side Control | 17 |
| CF-100 Gas-Fired Boiler Units, Equipment | 17 |
| CF-200 Gas-Fired Boiler Units, Purging | 25 |
| CF-300 Gas-Fired Boiler Units, Safety Controls | 25 |
| CF-400 Oil-Fired Boiler Units, Equipment | 26 |
| CF-500 Oil-Fired Boiler Units, Safety Controls | 29 |
| CF-600 Low Fire Start, Gas- or Oil-Fired Boiler Units | 29 |
| CF-700 Combination Gas- and Oil-Fired Units | 29 |
| CF-800 Electrically Heated Boilers | 29 |
| CF-900 Combustion Side Controls for Modular Boilers | 30 |
| Figure | |
| CG-1 Sediment Trap | 7 |
| Tables | |
| CF-1 400,000 Btu/hr (117 kW) and Smaller (Gas — Natural Draft) | 18 |
| CF-2 400,000 Btu/hr (117 kW) and Smaller (Power Gas Burners and Mechanical Draft Atmospheric Gas Burners), 3 gph (11.4 L/h) and Smaller (Oil) | 19 |
| CF-3 Safety Controls for Automatically Fired Units: Power Gas Burners and Mechanical Draft Atmospheric Gas Burners | 21 |
