FOREWORD

This Irish Standard Specification is in metric units and takes account of the principles of modular co-ordination as set out in 'Modular Guidelines', published by An Foras Forbartha. The specified window sizes are those given in 'Modular Components 1': 'Windows' also published by An Foras Forbartha. Co-ordinating sizes are in increments of the basic module M (100 mm). The specification makes provision for most of the sizes included in the Draft International Standard 'Modular Co-ordination—Co-ordinating sizes for windows'. (See Note after Clause 5.2.)

As the use of windows constructed to imperial dimensions is likely to continue for some time, 1.S. 63:1955 (as amended 1976) will remain in force on a temporary basis.

The specification does not cover construction or performance which will be dealt with in subsequent parts. It is concerned mainly with dimensions and tolerances, but information is also included on classification, coding and handing.

DECLARATION

OF

SPECIFICATION

ENTITLED

WOOD WINDOWS AND WOOD SURROUNDS FOR METAL WINDOWS— DIMENSIONS

AS

THE IRISH STANDARD SPECIFICATION FOR

WOOD WINDOWS AND WOOD SURROUNDS FOR METAL WINDOWS— DIMENSIONS

The Institute for Industrial Research and Standards in exercise of the power conferred by section 20 of the Industrial Research and Standards Act, 1961 (No. 20 of 1961), and with the consent of the Minister for Industry and Commerce hereby declares as follows:

- 1. This instrument may be cited as the Standard Specification (Wood Windows and Wood Surrounds for Metal Windows—Dimensions) Declaration, 1976.
- 2. (1) The Specification set forth in the Schedule to this declaration is hereby declared to be the standard specification for Wood Windows and Wood Surrounds for Metal Windows—Dimensions.
- (2) The said standard specification may be cited as Irish Standard 63: Part 1: 1976 or as I.S. 63: Part 1: 1976.
