English version

Cathodic protection for harbour installations

Protection cathodique des installations portuaires

Kathodischer Korrosionsschutz für Hafenbauten

This European Standard was approved by CEN on 6 July 2000.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Contents

Foreword.....	4
Introduction	5
1 Scope	5
1.1 Structures	5
1.2 Materials.....	5
1.3 Environment	5
1.4 Safety and environment protection.....	5
2 Normative references	6
3 Terms and definitions.....	6
4 Design basis	9
4.1 Objectives	9
4.2 Cathodic protection criteria	9
4.3 Design parameters.....	10
4.4 Electrical current demand	10
4.5 Cathodic protection systems.....	12
4.6 Electrical continuity	13
4.7 Interactions.....	13
5 Impressed current system design.....	14
5.1 Objectives	14
5.2 Design considerations.....	14
5.3 Equipment considerations	15
6 Galvanic anode system design.....	17
6.1 Objectives	17
6.2 Design considerations.....	17
6.3 Factors determining the anode current output and operating life.....	18

6.4 Location of anodes	18
7 Cathodic protection system monitoring.....	19
7.1 Objectives	19
7.2 Potential measurements	19
7.3 Measurement of impressed current anode electrical current output	19
7.4 Impressed current power source control.....	20
8 Documentation	20
8.1 Objectives	20
8.2 Impressed current system	20
8.3 Galvanic anodes system	21
Annex A (informative) Guidance for current requirements for cathodic protection of harbour installations..	22
A.1 Design current densities for the protection of bare steel in sea water.....	22
A.2 Design current densities for the protection of bare steel in saline mud	22
A.3 Values of coating breakdown factors of usual paint systems for the design of cathodic protection systems	22
Annex B (informative) Anode resistance and life determination	23
B.1 Anodic resistance (R_a) formulae	23
B.2 Anode life duration.....	24
Annex C (informative) Typical electrochemical characteristics of impressed current anodes	25

Foreword

This European Standard has been prepared by Technical Committee CEN/TC 219 "Cathodic protection", the secretariat of which is held by BSI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by July 2001, and conflicting national standards shall be withdrawn at the latest by July 2001.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.
