English version

**Detail Specification: High density rectangular connectors,  
round removable crimp contacts**

Spécification particulière: Connecteurs  
rectangulaires haute densité à contacts  
circulaires démontables à sertir

Bauartspezifikation: Hochpolige  
Rechteck-Steckverbinder mit runden  
auswechselbaren Crimpkontakten

This European Standard was approved by CENELEC on 2006-10-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

## Foreword

This European Standard was prepared by the CENELEC BTWG 117-1 "Revision of EN 175310-801 and EN 175301-803".

The text of the draft was submitted to the formal vote and was approved by CENELEC as EN 175301-801 on 2006-10-01.

This European Standard supersedes EN 175301-801:1999.

The following dates are proposed:

- latest date by which the EN has to be implemented  
at national level by publication of an identical  
national standard or by endorsement (dop) 2007-10-01
  - latest date by which the national standards conflicting  
with the EN have to be withdrawn (dow) 2009-10-01
-
