This European Standard was approved by CEN on 1993-12-16. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been taken over by CEN/TC 248 "Textiles and textile products" from the work of ISO/TC 38 "Textiles" of the International Organization for Standardization (ISO). This European Standard is based on ISO 7211-2:1984.

This European Standard shall be given the status of a national standard, either by publication of an identical standard, either by endorsement, at the latest by June 1994, and conflicting national standards shall be withdrawn at the latest by June 1993.

The Standard was approved and in accordance with the following CEN/CENELEC Internal Regulations, the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, United Kingdom.

Endorsement notice

The text of the International Standard ISO 7211-2:1984 was approved by CEN as a European Standard with the common modifications as given below:

Clause 5: Delete the existing text and replace by "The atmosphere for preconditioning, conditioning and testing shall be as specified in EN 20139".

Clause 10: Delete the second paragraph and replace by "When fabrics involving fancy weaving are patterned by small areas of 2 or more type of threads in warp and welt directions, count the number of threads of each type in a periodic pattern and then calculate the number of threads per 10 cm after measuring the periodicity and repeat pattern".

Annex: Under the title delete "forms part of the standard" and insert "included for information purposes".
