#### Foreword

This European Standard was prepared by Working Group CLC/TC CECC/SC 48B (former WG 25).

It is based, wherever possible, on the Publications of the International Electrotechnical Commission and in particular on IEC 512: Electromechanical components for electronic equipment; basic testing procedures and measuring methods.

The text of the draft based on document CECC(Secretariat)3555 was submitted to the formal vote; together with the voting report, circulated as document CECC(Secretariat)3663, it was approved as EN 175200 on 1995-07-07.

This European Standard replaces EN 175200:1991.

The following dates were fixed:

<ul> <li>latest date by which the EN has to be implemented at national level by publication of an identical national standard or by endorsement</li> </ul>	(dop)	1996-07-15
<ul> <li>latest date by which the national standards conflicting with the EN have to be withdrawn</li> </ul>	(dow)	1997-07-15

NOTE: This specification does not comply completely with the requirements of CECC 00 400.
