UNSATURATED POLYESTER RESIN (UP) - PART 6: PRACTICES FOR INSTALLATION**

NSAI in exercise of the power conferred by section 16 (3) of the National Standards Authority of Ireland Act, 1966 (No. 28 of 1996) and with the consent of the Minister for Enterprise, Trade and Employment, hereby declares as follows:

1. This instrument may be cited as the Standard Specification (Plastics piping systems for non-pressure drainage and sewerage - Glass-reinforced thermosetting plastics (GRP) based on unsaturated polyester resin (UP) - Part 6: Practices for installation) Declaration, 1998.
2. (1) The Specification set forth in the schedule to this declaration is hereby declared to be the standard specification for Plastics piping systems for non-pressure drainage and sewerage - Glass-reinforced thermosetting plastics (GRP) based on unsaturated polyester resin (UP) - Part 6: Practices for installation. The Schedule comprises the text of EN 1636-6:1997.
(2) The said standard specification may be cited as Irish Standard EN 1636-6:1998 or as I.S. EN 1636-6:1998.

Descriptors: plastics, pipe, fitting, underground, drainage, sewerage, non-pressure, glass-reinforced plastics, polyester, thermosetting resins

English version

**Plastics piping systems for non-pressure drainage
and sewerage - Glass-reinforced thermosetting
plastics (GRP) based on unsaturated polyester
resin (UP) - Part 6: Practices for installation**

Systèmes de canalisations en plastique pour
l'évacuation et l'assainissement sans pression
- Plastiques thermodurcissables renforcés de
verre (PRV) à base de résine de polyester non
saturé (UP) - Partie 6: Pratiques de pose

Kunststoff-Rohrleitungssysteme für drucklose
Entwässerungs- und Abwasserleitungen -
Glasfaserverstärkte duroplastische Kunststoffe
(GFK) auf der Basis von ungesättigtem
Polyesterharz (UP) - Teil 6: Verfahren zur
Verlegung

This European Standard was approved by CEN on 1997-08-16. CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

The European Standards exist in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been prepared by Technical Committee CEN/TC 155 "Plastics piping systems and ducting systems", the Secretariat of which is held by NNI.

This standard is part of a System Standard for plastics piping systems, which is a standard for glass-reinforced polyester plastics piping systems for non-pressure drainage and sewerage.

System Standards are based on the results of the work being undertaken in ISO/TC 138 "Plastics pipes, fittings and valves for the transport of fluids", which is a Technical Committee of the International Organization for Standardization (ISO). They are supported by separate standards on test methods to which references are made throughout the System Standard.

This standard is a guidance document only. It provides a set of guidelines which is related to that given in prEN 1046.

System Standards are consistent with standards on general functional requirement and on practices for installation.

Annex A, which is informative, gives a bibliography.

EN 1636 consists of the following parts, under the general title Plastics piping systems for non-pressure drainage and sewerage - Glass-reinforced thermosetting plastics (GRP) based on unsaturated polyester resin (UP)

- Part 1: General
- Part 2: Pipes with flexible, reduced articulated or rigid joints
- Part 3: Fittings
- Part 5: Fitness for purpose of the joints
- Part 6: Practices for installation (this standard)
- Part 7: Assessment of conformity
