Descriptors: Quality, electronic components, connectors

English version

**Sectional Specification:**  
**Connector sets for optical fibres and cables**  
**Type SC**

Spécification intermédiaire:  
Jeux de connecteurs pour fibres et  
câbles optiques - Type SC

Rahmenspezifikation:  
Steckverbindersätze für Lichtwellenleiter  
und Lichtwellenleiterkabel - Typ SC

This European Standard was approved by CENELEC on 1994-02-07. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

## FOREWORD

This European Standard was prepared by the Technical Committee CENELEC TC 86BXA (former WG 26 of CLC/TC CECC), Fibre optic connectors.

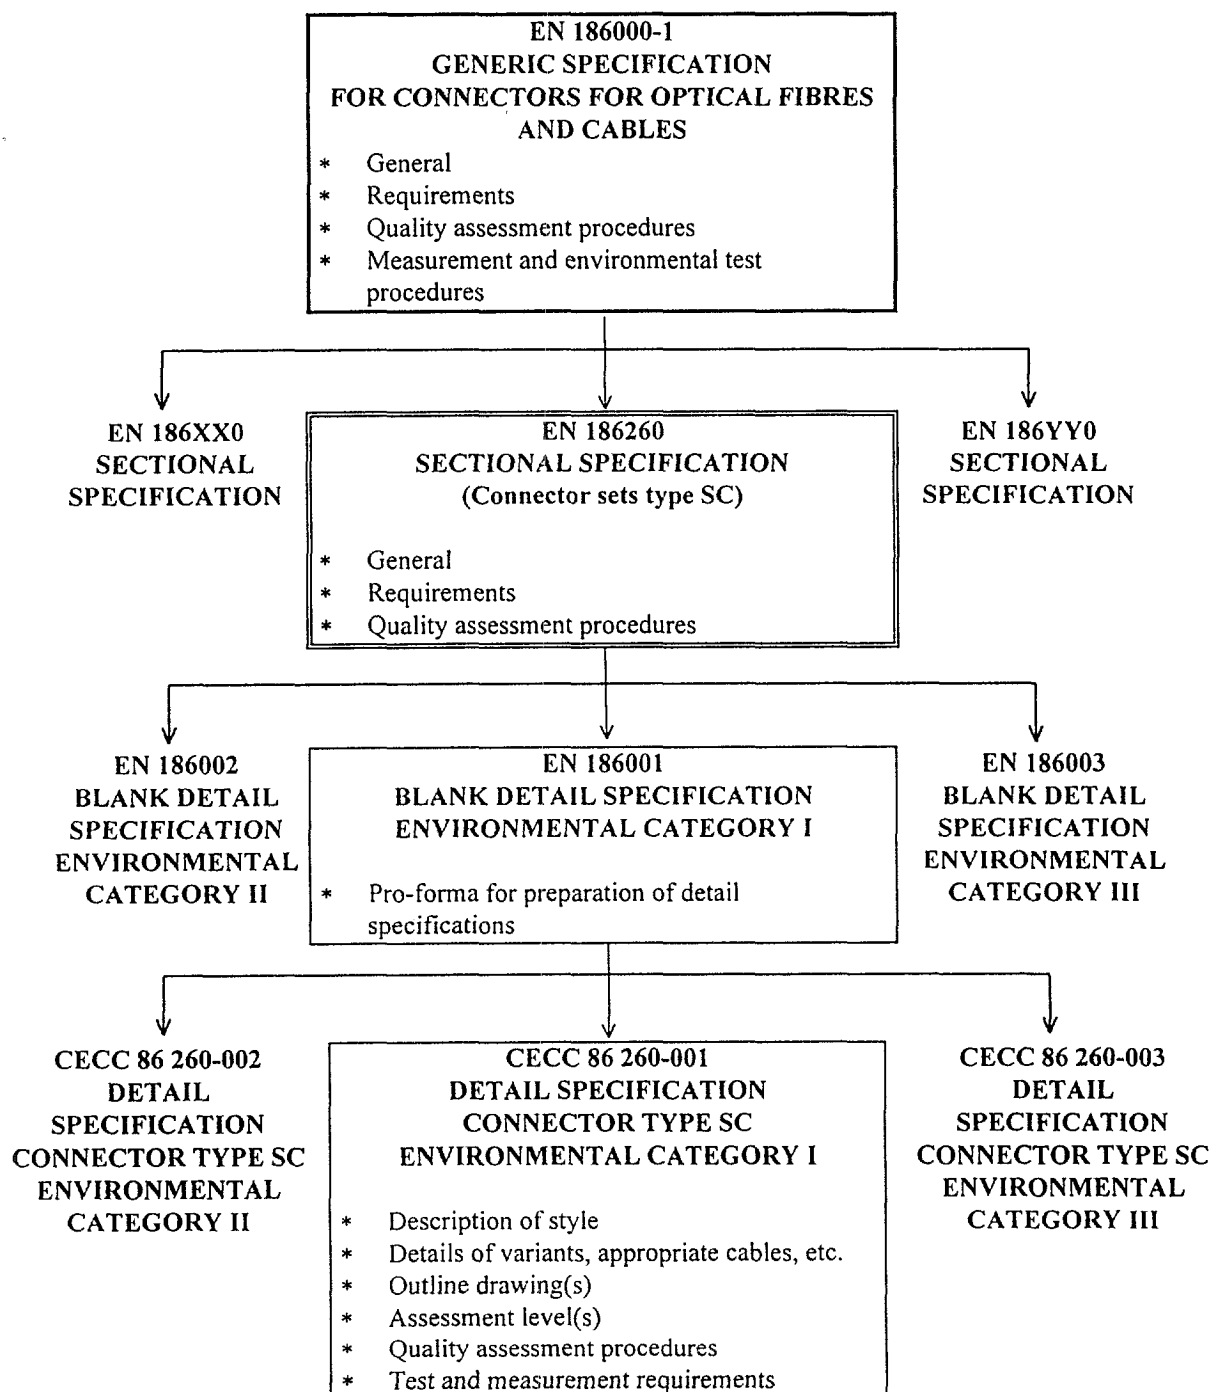

The text of the draft based on document CECC(Secretariat)3401 was submitted to the formal vote; together with the voting report, circulated as document CECC(Secretariat)3485, it was approved as EN 186260 on 1994-02-07.

The following dates were fixed:

- latest date by which the EN has to be implemented  
at national level by publication of an identical  
national standard or by endorsement (dop) 1998-08-15
- latest date by which the national standards conflicting  
with the EN have to be withdrawn (dow) 1999-08-15

Document numbering for fibre optic connector specifications follows 2.2(1) of CECC 00 700, Sect. IV, in order to permit the issue of more than nine sectional specifications. The approved numbering system applicable to fibre optic connector specifications is illustrated in the following diagram:

### CECC - SPECIFICATION SYSTEM

## **1 General**

### **1.1 Scope**

This sectional specification covers a family of single way fibre optic connector sets which are classified as type SC. Type SC is a connector set of the plug-adaptor-plug configuration. It features a push-pull coupling mechanism and cylindrical butting ferrules. The optical alignment mechanism is a split sleeve contained within the adaptor.

The specification contains the requirements for type SC connector sets.

Detail specifications (DS's) shall be prepared using the following pro forma general blank detail specifications (BDS's) associated with the generic specification. For example:

- EN 186005 for environmental category V.

When completed, the DS(s) applicable to this SS shall be numbered in accordance with CECC 00 700 (Section IV) Issue 1, clause 4.2, as follows. For example:

- CECC 86 265-000,  
Type SC,  
environmental category V.

### **1.2 Related documents**

The following standards contain provisions which, through reference in this text, constitute provisions of this standard. At the time of publication, the editions indicated were valid. All standards are subject to revision, and parties to agreements based on this standard are encouraged to investigate the possibility of applying the most recent editions of the standards listed below.

References made to a specific clause or sub-clause of a standard includes all sub-clauses to the reference unless otherwise specified.

|              |   |
|--------------|---|
| EN 186000-1: | Generic specification for connectors for optical fibres and cables.                         |
| IEC 825-1:   | Safety of laser products - Part 1: Equipment classification, requirements and user's guide. |
| IEC 825-2:   | Safety of laser products - Part 2: Safety of optical fibre communication systems.           |

### **1.3 Definitions**

All necessary definitions are given in EN 186000-1.
