EUROPEAN STANDARD

EN 50016

NORME EUROPÉENNE

EUROPÄISCHE NORM

July 2002

ICS 29.260.20

Supersedes EN 50016:1995

English version

Electrical apparatus for potentially explosive atmospheres — Pressurized apparatus "p"

Matériel électrique pour atmosphères
explosibles —
Surpression interne "p"

Elektrische Betriebsmittel für
explosionsgefährdete Bereiche —
Überdruckkapselung "p"

This European Standard was approved by CENELEC on 1999-10-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland and United Kingdom.

Central Secretariat: rue de Stassart 35, B - 1050 Brussels

Foreword

This European Standard was prepared by SC 31-7, Pressurization and other techniques, of the Technical Committee CENELEC TC 31, Electrical apparatus for explosive atmospheres.

It consists of the text of EN 50016:1995 and a new amendment (prA1:1999) which was submitted to the formal vote in April 1999 and was approved by CENELEC on 1999-10-01 for publication as a new edition of this European Standard.

This European Standard supersedes EN 50016:1995.

The European Standard was prepared under a mandate given to CENELEC by the European Commission and the European Free Trade Association and covers essential requirements of the EC Directive 94/9/EC.

This European Standard is to be read in conjunction with EN 50014:1997 - Electrical apparatus for potentially explosive atmospheres — General requirements, and with the European Standards for the specific types of protection listed in the scope of EN 50014:1997. This European Standard should not be considered in conjunction with any editions of these standards and their amendments published before 1997.

The following dates were fixed:

- latest date by which the EN has to be implemented
at national level by publication of an identical
national standard or by endorsement (dop) 2003-02-01
- latest date by which the national standards conflicting
with the EN have to be withdrawn (dow) 2003-06-30

Annexes designated "normative" are part of the body of the standard. Annexes designated "informative" are given only for information. In this standard annex D is normative and annexes A, B and C are informative.
