NORME EUROPEENNE

EUROPAISCHE NORM

March 1991

UDC: 662.3:620.1

Descriptors: Ammunition, powdery materials, consumer information, specifications, sampling, definitions, tests, sensitivity, thermal stability

English version

Propellants for commercial ammunition -
Requirements and test methods

Poudres propulsives pour les munitions du commerce - Exigences et méthodes d'essai	Treibladungspulver für Handelsmunition - Anforderungen und Prüfverfahren
--	---

This European Standard was approved by CEN on 1991-03-11
CEN members are bound to comply with the CEN/CENELEC Internal Regulations
which stipulate the conditions for giving this European Standard the
status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national
standards may be obtained on application to the Central Secretariat or to
any CEN member.

This European Standard exists in three official versions (English, French,
German). A version in any other language made by translation under the
responsibility of a CEN member into its own language and notified to the
Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Denmark,
Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg,
Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

FOREWORD

This European Standard was prepared by technical committee CEN/TC 111 "Propellants for commercial ammunition", for which the Secretariat is held by the Institut Belge de Normalisation (IBN).

This technical committee was created in May 1984 in answer to a request of the Association of European Manufactures of Sporting Ammunition (AFEMS).

The study of the original AFEMS proposal was started at the first TC 111 meeting in October 1984 and was continued at the meetings held in June 1985 and May 1986. Out of these deliberations came a draft proposal which was mainly inspired by the tests and criteria of tests series 3 of the Recommendations on the transport of dangerous goods - Tests and criteria - United Nations.

The final draft was submitted for Formal Vote and approved.

In accordance with the Common CEN/CENELEC Rules the following countries are bound to implement this European Standard: Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
