Descriptors: Data processing, open systems interconnection, directories,
protocoles

English Version

Information systems interconnection - Directory
system protocol

Interconnexion de systèmes
d'information - Protocole d'annuaire

Kommunikation von Informationssystemen
- Protokoll des Verzeichnisdienstes

This European Prestandard (ENV) was approved by CEN/CENELEC on 1992-04-01 as a prospective standard for provisional application. The period of validity of this ENV is limited initially to three years. After two years the members of CEN/CENELEC will be requested to submit their comments, particularly on the question whether the ENV can be converted into an EN.

CEN/CENELEC members are required to announce the existence of this ENV in the same way as for an EN and to make the ENV available promptly at national level in an appropriate form. It is permissible to keep conflicting national standards in force (in parallel to the ENV) until the final decision about the possible conversion of the ENV into an EN is reached.

CEN/CENELEC members are the national standards bodies and national committees, respectively, of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

FOREWORD

The work on this Functional Standard was assigned to EWOS and elaborated by EWOS/EGDIR and ETSI TSC TE.6.

The final draft was distributed for ballot to the CEN and CENELEC members with cover letter dated 1991-05-22. The result of the ballot was positive (without comments).

This work falls under the mandate from the EC Commission and EFTA referred to as BC-IT-12BA.
