EUROPÄISCHE NORM

EN ISO 11688-2

December 2000

ICS 17.140.20; 21.020

English version

**Acoustics - Recommended practice for the design of low-noise
machinery and equipment - Part 2: Introduction to the physics of
low-noise design (ISO/TR 11688-2:1998)**

Acoustique - Pratique recommandée pour la conception de
machines et équipements à bruit réduit - Partie 2:
Introduction à la physique de la conception à bruit réduit
(ISO/TR 11688-2:1998)

Akustik - Richtlinien für die Gestaltung lärmarmen
Maschinen und Geräte - Teil 2. Einführung in die Physik der
Lärminderung durch konstruktive Maßnahmen (ISO/TR
11688-2:1998)

This European Standard was approved by CEN on 17 September 1999.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

The text of the International Standard from Technical Committee ISO/TC 43 "Acoustics" of the International Organization for Standardization (ISO) has been taken over as an European Standard by Technical Committee CEN/TC 211 "Akustik", the secretariat of which is held by DS.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by 2001, and conflicting national standards shall be withdrawn at the latest by June 2001.

This European Standard has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports essential requirements of EU Directive(s).

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

Endorsement notice

The text of the International Standard ISO/TR 11688-2:1998 has been approved by CEN as a European Standard without any modification.

TECHNICAL REPORT

**ISO/TR
11688-2**

First edition
1998-09-01

Acoustics — Recommended practice for the design of low-noise machinery and equipment —

Part 2:

Introduction to the physics of low-noise design

*Acoustique — Pratique recommandée pour la conception de machines et
équipements à bruit réduit —*

Partie 2: Introduction à la physique de la conception à bruit réduit

Reference number

Contents

1	Scope	1
2	References	1
3	Definitions	1
4	Acoustical modelling	1
5	Control of airborne and liquid-borne noise	2
5.1	Generation of fluid-dynamic noise	2
5.2	Noise control measures	8
6	Control of structure-borne sound	10
6.1	Model of sound generation	10
6.2	Internal sources	15
6.3	Transmission of structure-borne sound	18
6.4	Control of structure-borne sound transmission by damping	28
6.5	Radiation	30
7	Analysis by measurement methods	35
7.1	Purpose of the analysis	35
7.2	Internal sources	36
7.3	Transmission paths	36
7.4	Radiation	36
7.5	Summary of procedures for the analysis of existing machinery by measurement methods	37
8	Analysis by computational methods	39
8.1	Purpose of the analysis	39
8.2	Deterministic methods	39
8.3	Statistical methods	39
8.4	Applicability of computational methods	39
Annex A	Example of the estimation of airborne sound emission of a machine caused by structure-borne and airborne sound emission from a component	41
Annex B	Glossary	44
Bibliography	46
