Service de terminal virtuel

Kommunikation von Informationssystemen
Basisklasse - S-Modus -
Formatorientiert - Teil 1: VT Dienst

This European Prestandard (ENV) was accepted by CEN/CENELEC on 1990-07-02 as a prospective standard for provisional application. The period of validity of this ENV is limited initially to three years. After two years the members of CEN/CENELEC will be requested to submit their comments, particularly on the question whether the ENV can be converted into an EN.

CEN/CENELEC members are required to announce the existence of this ENV in the same way as for an EN and to make the ENV available promptly at national level in an appropriate form. It is permissible to keep conflicting national standards in force (in parallel to the ENV) until the final decision about the possible conversion of the ENV into an EN is reached.

CEN/CENELEC members are the national standards organizations and national committees, respectively, of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

FOREWORD

ENV 41208-1 first appeared as a work item approved in 1988 when it was assigned to EWOS/EGVT.

EWOS delivered the proposed draft standard in October 1989. It was distributed for ballot in December 1989. The result of the ballot was positive. There were however some important comments.

In order to discuss the comments received and if possible incorporate them into the ENV to be published, it was decided to hold a voting meeting on 2 July 1990 with the drafting body, EWOS/EGVT and the CEN/CENELEC members in order to vote on an amended (if any) version.

Some proposed changes were approved and the outcome of the voting meeting was positive.
