NORME EUROPÉENNE
EUROPÄISCHE NORM

EN 12238

August 2001

ICS 91.140.30

English version

Ventilation for buildings - Air terminal devices - Aerodynamic testing and rating for mixed flow application

Ventilation des bâtiments - Bouches d'air - Essais
aérodynamiques et caractérisation pour applications en
diffusion à mélange

Lüftung von Gebäuden - Luftdurchlässe - Aerodynamische
Prüfung und Bewertung für Anwendung bei Mischströmung

This European Standard was approved by CEN on 29 June 2001.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Contents

	Page
Foreword	4
1 Scope	5
2 Normative references	5
3 Terms, definitions and symbols	5
3.1 functional characteristics of air terminal devices	5
3.2 Symbols	9
4 Instrumentation	11
4.1 Air flow rate measurement	11
4.2 Pressure measurement	11
4.3 Temperature measurements	12
4.4 Velocity measurements	12
5 Testing of pressure and air velocity v_k (first test installation)	12
5.1 Measurement of pressure requirement for a supply air terminal device	12
5.1.1 General	12
5.1.2 Measurement of static gauge pressure p_s with the first test installation A	13
5.1.3 Direct measurement of total pressure p_t with the first test installation A	13
5.1.4 Measurement of static pressure p_s with the first test installation B	14
5.1.5 Presentation of total pressure p_t	14
5.2 Measurement of pressure requirement for an exhaust air terminal device	15
5.2.1 Procedure	15
5.2.2 Measurement of static pressure with the first test installation C for exhaust air terminal device (excluding air transfer devices)	16
5.2.3 Direct measurement of total pressure with the first test installation C, for exhaust air terminal device	16
5.2.4 Measurement of static pressure with the first test installation D for exhaust air terminal device	17
5.2.5 Presentation of total pressure p_t	17
5.3 Determination of air velocity v_k and the corresponding area A_k for the air terminal device (not mandatory)	18
5.3.1 Principle	18
5.3.2 Test installation	18
5.3.3 Test procedure	18
5.3.4 Correction of flow rates to standard air conditions	19
5.3.5 Calculation of A_k	19
6 Test to measure the isothermal air discharge characteristics of a supply air terminal device (second test installation)	19
6.1 Test measurements	19
6.2 Test room	19
6.3 Test room equipment and instrumentation	20
6.4 Installation of the air terminal device	20
6.4.1 Classification of air terminal devices	20
6.4.2 Mounting of air terminal devices	20
6.4.3 Test duct and flow rate	21
6.5 Test procedure	21
6.6 Determination of isothermal performance	21
6.6.1 Test measurements	21
6.6.2 Determination of the main air stream direction	22
6.6.3 Measurement of air stream velocities	22

6.6.4	Determination of throw	23
6.6.5	Determination of spread	24
6.6.6	Determination of rise and drop	24
Annex A	(normative) Alternative exploratory technique for determination of throw, spread and drop	30
A.1	Scope	30
A.2	Determination of the point of maximum velocity	30
A.3	Determination of points at envelope velocity	31
A.4	Determination of spread	31
A.5	Determination of the rise and drop	31
A.6	Number of determinations	31

EN 12238:2001 (E)

Foreword

This European Standard has been prepared by Technical Committee CEN/TC 156 "Ventilation for buildings", the secretariat of which is held by BSI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by February 2002, and conflicting national standards shall be withdrawn at the latest by February 2002.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.
