FOREWORD

The CENELEC questionnaire procedure, performed for finding out whether or not the International Standard IEC 1010-2-031:1993 could be accepted without textual changes, has shown that no common modifications were necessary for the acceptance as European Standard.

The reference document was submitted to the CENELEC members for formal vote and was approved by CENELEC as EN 61010-2-031 on 8 March 1994.

The following dates were fixed:

- latest date of publication of an identical national standard (dop) 1995-03-15
- latest date of withdrawal of conflicting national standards (dow) 1995-03-15

For products which have complied with the relevant national standard before 1995-03-15, as shown by the manufacturer or by a certification body, this previous standard may continue to apply for production until 2000-03-15.

This Part 2 is intended to be used in conjunction with EN 61010-1:1993. Consideration may be given to future editions of, or amendments to EN 61010-1.

This Part 2 supplements or modifies the corresponding clauses in EN 61010-1. Where a particular subclause of Part 1 is not mentioned in this Part 2, that subclause applies as far as is reasonable. Where this part states "addition", "modification" or "replacement", the relevant text in Part 1 should be adapted accordingly.
