## **Foreword**

This document (EN 12792:2003) has been prepared by Technical Committee CEN/TC 156 "Ventilation for Buildings", the secretariat of which is held by BSI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by February 2004, and conflicting national standards shall be withdrawn at the latest by February 2004.

This document supersedes CR 12792:1997.

Annex A is informative.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland and the United Kingdom.

## **EN 12792:2003 (E)**

### **Introduction**

One of the goals of TC156 is to realize European Standards that use the same symbols and terminology. For this purpose WG1 of TC156 had the task to provide a standard for symbols and terminology to be used by all other working groups of TC156. This standard for symbols and terminology was generated by the different working groups themselves, and WG1 was responsible for the co-ordination between the working groups and standardization of the symbols and terminology within TC156, which then became compulsory for other WG's to use in their standards. The symbols and terminology in this English standard are numbered and it is intended that these numbers correspond to the German and French translation of the standard, so that the different definitions for the same symbol or term can be checked in English, French and German.
