## Evaluation of cold environments - Determination of required clothing insulation (IREQ) (ISO/TR 11079:1993)

Evaluation des ambiances froides - Détermination de l'isolement requis des vêtements (ISO/TR 11079:1993)

Bewertung von Kälteumgebungen - Bestimmung der erforderlichen Isolation der Bekleidung (IREQ) (ISO/TR 11079:1993)

This European Prestandard (ENV) was approved by CEN on 30 November 1997 as a prospective standard for provisional application.

The period of validity of this ENV is limited initially to three years. After two years the members of CEN will be requested to submit their comments, particularly on the question whether the ENV can be converted into a European Standard.

CEN members are required to announce the existence of this ENV in the same way as for an EN and to make the ENV available promptly at national level in an appropriate form. It is permissible to keep conflicting national standards in force (in parallel to the ENV) until the final decision about the possible conversion of the ENV into an EN is reached.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
