Introduction

The requirements of this part of IEC 60364 modify or replace certain of the general requirements of IEC 60364.

The clause numbering of part 7-711 follows the pattern and corresponding references of IEC 60364.

The numbers following the particular number of part 7-711 are those of the corresponding parts or clauses of IEC 60364.

The absence of reference to a part or a clause means that the general requirements of IEC 60364 are applicable.

Numbering in parentheses corresponds to the numbering of the “non restructured” IEC 60364 dated before 2002.
