FOREWORD

These Recommendations have been formulated by the Installation Technical Committee TC2 of the Gas Technical Standards Committee under whose direction the Recommendations have been prepared.

Acknowledgement is given to reference material under BSI publication *CP 331, Code of Practice for Installation of Pipes and Meters for Town Gas: Part 3, Low Pressure Installation Pipes, also to B.S. 5440: Part 1, Flues: Part 2, Air Supply, also C.O.R.G.I. Reference to Gas Safety, 1978. The above references are for information and are not intended to be restrictive.

The Recommendations have been prepared to meet the urgent need for minimum safety standards and procedures to be used when embarking upon Domestic Gas Installation Surveys for the imminent conversion to natural gas, and may be subject to future modification. Detailed instructions will be required from each gas undertaking to its operating staff on the implementation of these Recommendations.
