WORKSHOP

June 2008

AGREEMENT

ICS 35.240.80

English version

Coding of Information and Traceability of Human Tissues and Cells

This CEN Workshop Agreement has been drafted and approved by a Workshop of representatives of interested parties, the constitution of which is indicated in the foreword of this Workshop Agreement.

The formal process followed by the Workshop in the development of this Workshop Agreement has been endorsed by the National Members of CEN but neither the National Members of CEN nor the CEN Management Centre can be held accountable for the technical content of this CEN Workshop Agreement or possible conflicts with standards or legislation.

This CEN Workshop Agreement can in no way be held as being an official standard developed by CEN and its Members.

This CEN Workshop Agreement is publicly available as a reference document from the CEN Members National Standard Bodies.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Contents

Contents	2
Annexes.....	5
Foreword	6
5 Introduction and Executive Summary.....	6
1 Scope.....	9
2 Normative references.....	10
3 Definitions, symbols and abbreviations	11
3.1 Definitions.....	11
10 3.2 Abbreviations.....	11
4 Legal and regulatory position	14
4.1 EU Directives.....	14
5 Uses of a coding and traceability system	15
5.1 General considerations regarding coding systems	15
15 5.1.1 What is a coding system?	15
5.1.2 Is a coding system a nomenclature?.....	15
5.1.3 What is a coding management system?	16
5.1.4 What is a database?	16
5.1.5 Where does 'symbology' fit?	16
20 5.2 Unique identification	17
5.3 Traceability	17
5.4 Biovigilance links	17
5.5 Product Description	17
5.6 Facilitating Reporting Requirements	18
25 5.7 Overcome language barriers.....	18
5.8 Supporting regulatory/ethical control with better source tracing.....	18
5.9 Disadvantages to traceability.....	18
6 Previous work by the Tissue and Cells Regulatory Committee Expert Working Group ...	19
6.1 Background	19
30 6.2 Code structure proposal by the DG SANCO Tissue and Cells Regulatory Committee Expert Working Group	19
6.2.1 Code structure sub team conclusions	19
6.2.2 Summary of DG SANCO Tissue and Cells Regulatory Committee Expert Working Group	20
35 6.3 Conclusions on the DG SANCO Tissue and Cells Regulatory Committee Expert Working Group	20
7 Factors to be taken into account	22
7.1 Interpretation of scope.....	22
7.2 Definition of a donation and location	22
7.3 Global nature of transplantation	23
40 7.4 Import / export of start or final product	23
7.5 Technological aspects.....	24
7.5.1 General considerations	24
7.5.2 Labelling	24
45 7.5.3 User interface	24
7.5.4 Batches and tracing constituent elements.....	24
7.5.4.1 Example models representing aspects of material and process information.....	25
7.5.5 Effect of short term solutions on long term planning	25
7.5.6 Interface between tissues, cells, organs, other materials of human origin & advanced therapies....	25
7.5.7 Financial issues relating to tissue & cell sufficiency	26
50 7.6 Political and philosophical issues	28
7.7 Private public interface	28
7.8 Complexities.....	28

8	Consultation with workshop participants regarding ranking of factors to be taken into account	29
8.1	Background	29
8.2	Ranking of factors	29
5	8.3 Conclusions from questionnaire	30
8.4	Importance of factors considered.....	31
9	Survey of coding systems in use and development in Europe.....	32
9.1	Objective of study.....	32
9.2	Scope of this survey	32
10	9.3 Horizon scan of existing systems	32
9.4	Conclusions relating to the survey of existing systems	32
10	10 Analysis of codes as candidates for all or part of the European Coding System	34
10.1	Selection of candidate systems.....	34
10.2	Self-assessment questionnaire	34
15	10.3 Self assessment responses	34
10.4	Selection of the appraisal panel	34
10.5	Candidate codes	34
10.6	Specification for analysis of candidate codes.....	36
10.6.1	Assessment questions structured and applied to all three presented systems.....	36
20	10.7 Presentations	36
10.8	Panel analysis	36
11	Conclusions from evaluation of submitted coding systems.....	37
11.1	Options originally proposed (but rejected).....	37
11.2	Options appraisal	38
25	11.3 Augmenting the ISBT 128 code	38
11.3.1	Background	38
11.3.2	The donation number	39
11.3.3	The key code.....	39
11.3.4	How the key code might support different traceability regimes	40
30	11.3.5 Product codes	41
11.4	Traceability system.....	41
12	Recommendations	42
12.1	Variation 1: Use "key code" together with ISBT 128	42
12.2	Variation 2: Retain current donation identification but migrate to ISBT 128 product codes	42
35	12.3 Variation 3: Retain current donation and product codes in each country or establishment, and add "key code".....	43
12.4	Recommended actions	43
13	Use of ISBT 128 in the European Tissue and Cell sectors	44
13.1	Relationships to Competent Authorities	44
40	13.2 Commercial standing.....	44
13.3	Professional and geographical rivalries.....	44
14	Implementation recommendations	46
14.1	Background	46
14.2	EU implementation Recommendations	46
45	14.3 MS implementation considerations	46
14.4	EU coordination	47
14.4.1	Proposals	47
14.4.2	EC harmonisation Committee	47
14.4.3	Key code development	47
50	14.4.4 Product nomenclature development.....	47
14.4.5	Relationships with ICCBBA	48
14.5	Traceability system.....	48
14.6	Phased implementation.....	49
14.7	Costs	49
55	14.8 Operational infrastructure and training for implementation of the EU Tissue and Cells Coding System.....	50
14.9	Labelling	50
14.9.1	Proposals	50

CWA 15849:2008 (E)

14.9.2	Bio-hazard	50
14.9.3	Re-labelling.....	51
14.9.4	Import and re-labelling.....	51
14.9.5	Label layout guidance – what and where	51
5	14.9.6 Existing stock inventory during transition	52
	14.9.7 RFID implications for consideration.....	52
	14.9.8 Manual versus electronic code reading.....	52
	Informative References and Bibliography	53
	References	53
10	Bibliography	54
