CEN/TS 81-29

October 2004

ICS 91.140.90

English version

**Safety rules for the construction and installation of lifts - Lifts for
the transport of persons and goods - Part 29: Interpretations
related to EN 81-20 up to EN 81- 28 (includes EN 81-1:1998 and
EN 81-2:1998)**

Règles de sécurité pour la construction et l'installation des
élévateurs - Elévateurs pour le transport de personnes et
d'objets - Partie 29 : Interprétations relatives aux EN 81-20
à EN 81-28 (EN 81-1:1998 et EN 81-2:1998 inclus)

Sicherheitsregeln für die Konstruktion und den Einbau von
Aufzügen - Aufzüge für den Personen- und Gütertransport -
Teil 29: Auslegungen zu EN 81-20 bis EN 81-28
(einschließlich EN 81-1:1998 und EN 81-2:1998)

This Technical Specification (CEN/TS) was approved by CEN on 30 May 2004 for provisional application.

The period of validity of this CEN/TS is limited initially to three years. After two years the members of CEN will be requested to submit their comments, particularly on the question whether the CEN/TS can be converted into a European Standard.

CEN members are required to announce the existence of this CEN/TS in the same way as for an EN and to make the CEN/TS available promptly at national level in an appropriate form. It is permissible to keep conflicting national standards in force (in parallel to the CEN/TS) until the final decision about the possible conversion of the CEN/TS into an EN is reached.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This document (CEN/TS 81-29: 2004) has been prepared by Technical Committee CEN/TC 10 “Lifts, escalators and moving walks”, the secretariat of which is held by AFNOR.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to announce this CEN Technical Specification: Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

The CEN members are free to choose the way in which they implement this CEN Technical Specification. The CEN members are asked to inform their national committee(s) about this CEN Technical Specification, and make it available on request.

This document is a collection of interpretations related to EN 81-20 up to EN 81-28. Since the standards EN 81-1 and EN 81-2 have not yet been incorporated into the group EN 81-20 to EN 81-28 and interpretations to other standards of this group are not yet available, this issue contains only information about interpretations related to EN 81-1 and EN 81-2. According to the progress in working out interpretations, this document will be amended.

This is the first edition of this CEN Technical Specification.

CEN/TS 81-29:2004 (E)

Introduction

Standards reflect the consensus of the best European expertise and are prepared with highest care. Product standards cannot be formulated in such a way that they describe all possible technical solutions and therefore exclude all uncertainties regarding the understanding of the required provisions. On the other hand technology is in a permanent evolution, the progress of which cannot be incorporated into standards quickly enough.

Interpretations are a practical way to give:

- answers to questions regarding the understanding of clauses in standards ;
- feedback to the CEN-Committee responsible for a standard about the practical experiences resulting from the use of the standard ;
- guidance to further development and improvement of standards following :
 - experience, especially accidents and incidents ;
 - progress in technology ;
 - the state of the art.

Information concerning the procedure developed by CEN/TC 10 concerning the elaboration of interpretations is shown in CEN Technical Report TR 81-10.
