CEN/TS 1159-4

July 2004

ICS 81.060.30

English version

**Advanced technical ceramics - Ceramic composites -
Thermophysical properties - Part 4: Determination of thermal
conductivity**

This Technical Specification (CEN/TS) was approved by CEN on 13 July 2001 for provisional application.

The period of validity of this CEN/TS is limited initially to three years. After two years the members of CEN will be requested to submit their comments, particularly on the question whether the CEN/TS can be converted into a European Standard.

CEN members are required to announce the existence of this CEN/TS in the same way as for an EN and to make the CEN/TS available promptly at national level in an appropriate form. It is permissible to keep conflicting national standards in force (in parallel to the CEN/TS) until the final decision about the possible conversion of the CEN/TS into an EN is reached.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This document CEN/TS 1159-4:2004 has been prepared by Technical Committee CEN/TC 184 “Advanced technical ceramics”, the secretariat of which is held by BSI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by January 2005, and conflicting national standards shall be withdrawn at the latest by January 2005.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to announce this Technical Specification: Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

EN 1159 *Advanced technical ceramics — Ceramic composites. Thermophysical properties* consists of four parts:

- Part 1: *Determination of thermal expansion*;
- Part 2: *Determination of thermal diffusivity*;
- Part 3: *Determination of specific heat capacity*;
- Part 4: *Determination of thermal conductivity*.

Part 4 is a Technical Specification.

CEN/TS 1159-4:2004 (E)

Introduction

Statement on patent use

Attention is drawn to the fact that compliance with this document may involve the use of a patented process, which is the "Process for determining the thermal conductivity of a material at high temperature and conductimeter for implementation of this process", given in this document.

CEN takes no position concerning the evidence, validity and scope of this patent right. The holder of the patent has provided a statement concerning use of the patented process. The holder of this patent right has assured CEN that he is willing to negotiate licences under reasonable and non-discriminatory terms and conditions with the applicants throughout the world. In this respect, the statement of the holder of this patent right is registered with CEN. Further information may be obtained from:

European Aeronautic Defence and Space Company EADS France S.A.S.
Mr Jean-Marc THOMAS –
Avenue du Général Niox – BP 11
33 165 Saint-Médard-en-Jalles cedex - FRANCE

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights other than those identified above. CEN shall not be held responsible for identifying any or all such patent rights.
