English version

**Lifting and Load-bearing Equipment for Stages and other
Production Areas within the Entertainment Industry - Part 1:
General requirements (excluding aluminium and steel trusses
and towers)**

This CEN Workshop Agreement has been drafted and approved by a Workshop of representatives of interested parties, the constitution of which is indicated in the foreword of this Workshop Agreement.

The formal process followed by the Workshop in the development of this Workshop Agreement has been endorsed by the National Members of CEN but neither the National Members of CEN nor the CEN Management Centre can be held accountable for the technical content of this CEN Workshop Agreement or possible conflicts with standards or legislation.

This CEN Workshop Agreement can in no way be held as being an official standard developed by CEN and its Members.

This CEN Workshop Agreement is publicly available as a reference document from the CEN Members National Standard Bodies.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Foreword.....	5
Introduction	6
1 Scope	7
2 Normative references	8
3 Terms and definitions	10
3.1 General terms.....	10
3.2 Loads and forces	13
3.3 Electrical equipment.....	14
3.4 Tolerances relating to movement	16
4 Hazards	16
5 Design requirements	17
5.1 General.....	17
5.2 Examples of machine installations showing the groups	17
5.3 Load assumptions for stage elevators	22
5.4 Load bearing equipment	22
5.4.1 General.....	22
5.4.2 Load bearing lines	23
5.4.3 Wire ropes terminations.....	23
5.5 Winding devices and diverter pulleys	25
5.5.1 Winding devices for wire ropes.....	25
5.5.2 Diverter pulleys for round wire ropes.....	26
5.5.3 Diverter pulleys for fibre ropes	26
5.5.4 Drive and idler sprockets for steel chains	26
5.5.5 Drive systems.....	26
5.6 Load carrying devices	29
5.7 Loads	29
5.8 Manually operated lifting	29
6 Safeguarding hazardous areas	29
6.1 Protective spaces	29
6.2 Safeguarding at crushing, shearing and trapping points, and fall protection	30
6.3 Accessibility of maintenance areas	30
6.4 Elevator shaft walls, openings and landing doors.....	30
6.4.1 General.....	30
6.4.2 Interlocking of doors	30
6.5 Counterweights.....	31
7 Overhead suspension of loads	31
7.1 General.....	31
7.2 Lifting equipment.....	31
7.3 Direct Acting Force Limiters.....	31
7.4 Single Components	31
7.5 Lifting accessories	31
7.6 Precautions	31
7.7 Secondary suspension	31
8 Electrical equipment and control systems	32
8.1 General requirements.....	32
8.1.1 General.....	32

8.1.2	Selection of equipment.....	32
8.1.3	Electrical supply.....	32
8.1.4	Physical environment and operation conditions.....	32
8.2	Incoming supply conductor terminations and devices for disconnecting and switching off	33
8.2.1	Incoming supply conductor terminations	33
8.2.2	Terminal for connection to the external protective earthing system.....	33
8.2.3	Supply disconnecting (isolating) devices	33
8.2.4	Devices for switching off for prevention of unexpected start-up	33
8.2.5	Devices for disconnecting electrical equipment.....	33
8.2.6	Protection against unauthorised, inadvertent and/or mistaken connection	33
8.2.7	Protection against electric shock.....	33
8.2.8	Protection of equipment.....	34
8.2.9	Control circuits and control functions.....	34
8.3	Safety functions and control functions in the event of failure	37
8.3.1	General	37
8.3.2	Providing redundancy	38
8.3.3	Hazardous operating conditions	38
8.3.4	Safety devices and safety functions	38
8.3.5	Devices for testing safety functions	41
8.4	Emergency stop and emergency switching-off functions	41
8.4.1	Emergency stop	41
8.4.2	Activation device.....	41
8.4.3	Actuators for and design of emergency stop and switching-off functions	41
8.5	Electronic and programmable electronic systems (E/PES).....	41
8.5.1	General	41
8.5.2	Programmable controllers.....	41
8.5.3	Use of programmable electronic systems (E/E/PES) to implement safety functions	42
8.5.4	User information for safety functions.....	42
8.6	Use of programmable electronic systems (E/E/PES) without safety functions.....	42
8.7	Operator interfaces, control devices and contactors.....	43
8.7.1	General	43
8.7.2	Start devices and indicators	43
8.7.3	Devices for emergency stop and switching off.....	43
8.7.4	Requirements for contactors	43
8.8	Conductors and cables.....	43
8.9	Wiring practice	43
8.10	Electric motors and associated equipment.....	44
8.11	Accessories and lighting.....	44
8.12	Marking, warning signs and reference designations	44
8.13	Technical documentation	44
8.14	Testing and verification of characteristics	44
8.14.1	General	44
8.14.2	Scope of routine testing	44
9	Information for use.....	45
9.1	General	45
9.2	Technical data to be included.....	45
9.3	Marking.....	45
9.3.1	General	45
9.3.2	Safe working load.....	45
9.3.3	Anchorage.....	46
9.3.4	Loading notices	46
9.3.5	Lifting accessories	47
9.3.6	Machinery.....	47
9.3.7	Remote operations	48
9.3.8	Personnel lifting	48
9.4	Documentation and information	48
9.4.1	General	48
9.4.2	Operating manual.....	48
