EUROPEAN STANDARD

EN 15585

NORME EUROPÉENNE

EUROPÄISCHE NORM

July 2008

ICS 67.060

English Version

**Cereals and cereal products - Durum wheat (T. durum Desf.) -
Determination of percentage of mitadine grains and calculation
of percentage of vitreous grains**

Céréales et produits céréaliers - Blé dur (T. durum Desf.) -
Détermination du taux de mitadinage et calcul du taux de
vitrosité

Getreide- und Getreideerzeugnisse - Hartweizen (T. Durum
Desf.) - Bestimmung des prozentualen Anteils an mehligen
Körnern und Berechnung des prozentualen Anteils an
glasigen Körnern

This European Standard was approved by CEN on 21 June 2008.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This document (EN 15585:2008) has been prepared by Technical Committee CEN/TC 338 "Cereal and cereal products", the secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by January 2009, and conflicting national standards shall be withdrawn at the latest by January 2009.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

1 Scope

This European Standard specifies a reference method for the determination of the proportion of mitadine grains, applicable exclusively to durum wheat (*Triticum durum* Desf.).

2 Normative references

The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EN 15587, *Cereals and cereal products - Determination of Besatz in wheat (Triticum aestivum L.), durum wheat (Triticum durum Desf.), rye (Secale cereale L.) and feed barley (Hordeum vulgare L.)*

EN ISO 6644, *Flowing cereals and milled cereal products - Automatic sampling by mechanical means (ISO 6644:2002)*

EN ISO 13690, *Cereals, pulses and milled products - Sampling of static batches (ISO 13690:1999)*

prEN ISO 24333, *Cereals and cereal products - Sampling (ISO/DIS 24333:2008)*

ISO 5223, *Test sieves for cereals*

3 Terms and definitions

For the purposes of this document, the following terms and definitions apply.

3.1

vitreous grain

translucent grain, the cut grain having a smooth, shiny surface without any mealy appearance

3.2

mitadine grain

durum wheat grain which is not considered to be completely vitreous under the conditions of this European Standard

NOTE In some countries, these grains are also called piebald grains.

3.3

proportion of mitadine grains

percentage by mass of mitadine grains in a sample of durum wheat as determined with the method described in this European Standard

3.4

proportion of vitreous grains

percentage by mass as calculated with the formula given in 8

4 Principle

Removal of any impurities, including grains of common wheat (*Triticum aestivum*), by sifting and sorting by hand according to EN 15587, followed by separation of visibly mitadine grains, and verification of the vitreous state of the other grains after cutting with a scalpel.
