English version

Specification and testing of LPG cylinder valves - Self closing

Spécifications et essais pour valves de bouteilles de GPL -
Fermeture automatique

Spezifikation und Prüfung für Flüssiggas-(LPG-)
Flaschenventile - Selbstschließend

This amendment A1 modifies the European Standard EN 13152:2001; it was approved by CEN on 11 March 2003.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for inclusion of this amendment into the relevant national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Management Centre or to any CEN member.

This amendment exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland and United Kingdom.

EN 13152:2001/A1:2003 (E)

Foreword

This document (EN 13152:2001/A1:2003) has been prepared by Technical Committee CEN/TC 286 "Liquefied Petroleum Gas equipment and accessories", the secretariat of which is held by NSAI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by November 2003, and conflicting national standards shall be withdrawn at the latest by November 2003.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Luxembourg, Malta, Netherlands, Norway, Portugal, Slovakia, Spain, Sweden, Switzerland and the United Kingdom.

This document has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports the objectives of the framework Directives on Transport of Dangerous Goods.

This European Standard has been submitted for reference into the RID and/or in the technical annexes of the ADR. Therefore in this context the standards listed in the normative references and covering basic requirements of the RID/ADR not addressed within the present standard are normative only when the standards themselves are referred to in the RID and/or in the technical annexes of the ADR.

Delete 3.1 and replace with the following:

"3.1

LPG

mixture of light hydrocarbons, gaseous under standard atmospheric conditions, which can be liquefied by increased pressure or decreased temperature. The main components are propane, propene, butane and butene isomers"

4.4.3 Excess flow device

Delete NOTE and replace with the following:

"Excess flow devices shall be designed so that their function does not interfere with the operation of a pressure relief valve, if fitted."

Delete 4.5.3 and replace with the following:

"4.5.3 Valves with a passageway of cross sectional area equivalent to (or greater than) a 3 mm diameter hole for liquid, or an 8 mm diameter hole for vapour, shall be protected by an excess flow device."

Table 1, test 5 (French version only) – change the number of cycles from "1 000" to "10 000"

5.3.3.1 (English and French versions only) – change "1 013 bar" to "1,013 bar"

5.3.5 2nd paragraph – change "1 013 bar" to "1,013 bar"

5.3.7 Valve stem test

1st paragraph (English and French versions only).

Change the reference from "Table 4" to "Table 3".

6 Markings

Delete the 3rd bullet point and add the following note:

"NOTE The Council Directive 1999/36/EC also has marking requirements."
