NORME EUROPÉENNE

EUROPÄISCHE NORM

August 2006

ICS 03.120.10; 93.100

English Version

Railway applications - Track - Qualification system for railway trackwork contractors

Applications ferroviaires - Voie - Système de qualification
des entreprises de travaux de voie ferrée

Bahnanwendungen - Oberbau - Qualifizierungssystem für
Gleisbauunternehmen

This European Standard was approved by CEN on 21 July 2006.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

EN 14969:2006 (E)

Foreword

This document (EN 14969:2006) has been prepared by Technical Committee CEN/TC 256 "Railway applications", the secretariat of which is held by DIN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by February 2007, and conflicting national standards shall be withdrawn at the latest by February 2007.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

1 Scope

This European Standard specifies the definitions, procedures, criteria and their assessment as well as the respective documentation related to a qualification system of trackwork contractors, which relates to the Directive 2004/17/EC¹⁾. This qualification system identifies trackwork contractors that can be invited for tendering trackwork contracts.

Evaluation of the contractors applying for parts of the contract, which are not trackwork, is not covered by this standard.

This European Standard may also be used for a qualification system of trackwork contractors applying for contracts with a value below the minimum limit as defined in the Directive 2004/17/EC.

2 Normative references

The following referenced documents are indispensable for the application of this document. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EN 13231 (series), *Railway applications – Track – Acceptance of works*

prEN 13803 (series), *Railway applications – Track alignment design parameters – Track gauges 1435 mm and wider*

EN 13848-1, *Railway applications – Track – Track geometry quality – Part 1: Characterization of track geometry*

EN 13848-2, *Railway applications – Track – Track geometry quality – Part 2: Measuring devices – Track recording vehicles*

EN 13848-5, *Railway applications – Track – Track geometry quality – Part 5: Geometric quality assessment*

1) DIRECTIVE 2004/17/EC OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of 31 March 2004 coordinating the procurement procedures of entities operating in the water, energy, transport and postal services sectors
