NORME EUROPÉENNE

EUROPÄISCHE NORM

February 2004

ICS 35.100.70; 97.120

Supersedes R205-007:1996

English version

**Home and Building Electronic Systems (HBES)
Part 4-1: Media independent layers –
Application layer for HBES Class 1**

Systèmes électroniques pour les foyers
domestiques et les bâtiments (HBES)
Partie 4-1: Couches indépendantes
des media –
Couche application pour HBES Classe 1

Elektrische Systemtechnik für Heim
und Gebäude (ESHG)
Teil 4-1: Medienunabhängige Schicht –
Anwendungsschicht für ESHG Klasse 1

This European Standard was approved by CENELEC on 2003-12-02. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in one official version (English). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official version.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Contents

Foreword.....	4
Introduction	5
1 Scope	5
2 Normative references	5
3 Terms, definitions and abbreviations	5
3.1 Terms and definitions.....	5
3.2 Abbreviations	6
4 Services of the application layer	6
4.1 Communication modes	6
4.2 Service primitives of the application layer.....	7
5 Application layer Protocol Data Unit (APDU)	8
6 Application layer services.....	11
6.1 Application layer services on multicast communication mode.....	11
6.2 Application layer services on broadcast communication mode	17
6.3 Application layer services on point-to-point connection-less communication mode.....	36
6.4 Application layer services on point-to-point connection-oriented communication mode	51
6.5 Router-specific application layer services on point-to-point connection-oriented communication mode	79
7 Parameters of application layer.....	80
7.1 Association table	80
7.2 Verify flag	80
Figure 1 – Interaction of the application layer for services that are not remote confirmed	7
Figure 2 – Interaction of the application layer for services that are remote confirmed	8
Figure 3 – APDU (example)	8
Figure 4 – Mapping the ASAP to the TSAP (example)	11
