## **Foreword**

This document (CEN/TR 15367-3:2009) has been prepared by Technical Committee CEN/TC 19 “Gaseous and liquid fuels, lubricants and related products of petroleum, synthetic or biological origin”, the secretariat of which is held by NEN.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

CEN/TR 15367 consists of the following parts, under the general title *Petroleum products – Guide for good housekeeping*:

- *Part 1: Automotive diesel fuels;*
- *Part 2: Automotive petrol fuels;*
- *Part 3: Prevention of cross contamination.*

This part of this Technical Report describes the control of potential sources of contamination of one fuel type by usually small amounts of a different fuel type that was previously transported. For guidance concerning diesel distribution, Part 1 is published to specifically address biodiesel or FAME (according to EN 14214). For guidance concerning distribution of petrol and ethanol (as specified by EN 15376) in specific detail, Part 2 is published.
