English version

**Railway applications -
Railway rolling stock power and control cables
having special fire performance -
Part 2-2: Cables with crosslinked elastomeric insulation -
Multicore cables**

Applications ferroviaires -
Câbles de puissance et de contrôle
à comportement au feu spécifié
pour matériel roulant ferroviaire -
Partie 2-2: Câbles à enveloppe
isolante réticulée -
Câbles multiconducteurs

Bahnanwendungen -
Starkstrom- und Steuerleitungen
für Schienenfahrzeuge mit verbessertem
Verhalten im Brandfall -
Teil 2-2: Leitungen mit vernetzter
elastomerer Isolierung -
Mehr- und vieladrige Leitungen

This European Standard was approved by CENELEC on 2008-03-01. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.

Foreword

This European Standard was prepared by Working Group 12, Railway cables, of the Technical Committee CENELEC TC 20, Electric cables, as part of the overall programme of work in the Technical Committee CENELEC TC 9X, Electrical and electronic applications for railways.

The text of the draft was submitted to the formal vote and was approved by CENELEC as EN 50264-2-2 on 2008-03-01.

This European Standard supersedes EN 50264-3:2002.

The following dates were fixed:

- latest date by which the EN has to be implemented
at national level by publication of an identical
national standard or by endorsement (dop) 2009-03-01
 - latest date by which the national standards conflicting
with the EN have to be withdrawn (dow) 2011-03-01
