Irish Standard
I.S. EN 10294-2:2012

Hollow bars for machining - Technical delivery conditions - Part 2: Stainless steels with specified machinability properties

I.S. EN 10294-2:2012

Incorporating amendments/corrigenda/National Annexes issued since publication:

The National Standards Authority of Ireland (NSAI) produces the following categories of formal documents:

I.S. xxx: Irish Standard – national specification based on the consensus of an expert panel and subject to public consultation.

S.R. xxx: Standard Recommendation - recommendation based on the consensus of an expert panel and subject to public consultation.

SWiFT xxx: A rapidly developed recommendatory document based on the consensus of the participants of an NSAI workshop.

This document replaces:

English Version

**Hollow bars for machining - Technical delivery conditions - Part
2: Stainless steels with specified machinability properties**

Barres creuses pour usinage - Conditions techniques de
livraison - Partie 2: Aciers inoxydables à usinabilité
spécifiée

Stahlrohre für die spanende Bearbeitung (Drehteilrohre) -
Technische Lieferbedingungen - Teil 2: Nichtrostende
Stähle mit spezifizierten Zerspanungseigenschaften

This European Standard was approved by CEN on 16 December 2011.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

Foreword

This document (EN 10294-2:2012) has been prepared by Technical Committee ECISS/TC 110 "Steel tubes, and iron and steel fittings", the secretariat of which is held by UNI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by August 2012, and conflicting national standards shall be withdrawn at the latest by August 2012.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

This document differs from ISO 2938, *Hollow bars for machining*.

EN 10294 consists of the following parts, under the general title *Hollow bars for machining — Technical delivery conditions*:

- Part 1: Non alloy and alloy steels;
- Part 2: Stainless steels with specified machinability properties.

Another European Standard series covering tubes for mechanical and general engineering purposes are:

- EN 10297, *Seamless circular steel tubes for mechanical and general engineering purposes - Technical delivery conditions*
- EN 10296, *Welded circular steel tubes for mechanical and general engineering purposes - Technical delivery conditions*.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.
