Low-voltage electrical installations -- Part 7-709: Requirements for special installations or locations - Marinas and similar locations (IEC 60364-7-709:2007 (MOD))

I.S. HD 60364-7-709:2009

Incorporating amendments/corrigenda issued since publication:

HD 60364-7-709:2009/AC:2010

HD 60364-7-709:2009/A1:2012

The National Standards Authority of Ireland (NSAI) produces the following categories of formal documents:

I.S. xxx: Irish Standard – national specification based on the consensus of an expert panel and subject to public consultation.

S.R. xxx: Standard Recommendation - recommendation based on the consensus of an expert panel and subject to public consultation.

SWiFT xxx: A rapidly developed recommendatory document based on the consensus of the participants of an NSAI workshop.

HD 60364-7-709/A1

April 2012

ICS 29.020; 91.140.50

English version

**Low-voltage electrical installations -
Part 7-709: Requirements for special installations or locations -
Marinas and similar locations
(IEC 60364-7-709:2007/A1:2012)**

Installations électriques à basse tension -
Partie 7-709: Exigences pour les
installations et emplacements spéciaux -
Marinas et emplacements analogues
(CEI 60364-7-709:2007/A1:2012)

Errichten von Niederspannungsanlagen -
Teil 7-709: Anforderungen für
Betriebsstätten, Räume und Anlagen
besonderer Art -
Marinas und ähnliche Bereiche
(IEC 60364-7-709:2007/A1:2012)

This amendment A1 modifies the Harmonization Document HD 60364-7-709:2009; it was approved by CENELEC on 2012-03-21. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for implementation of this amendment at national level.

Up-to-date lists and bibliographical references concerning such national implementations may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This amendment exists in three official versions (English, French, German).

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

Foreword

The text of document 64/1811/FDIS, future edition 1 of IEC 60364-7-709:2009/A1, prepared by IEC/TC 64 "Electrical installations and protection against electric shock" was submitted to the IEC-CENELEC parallel vote and approved by CENELEC as HD 60364-7-709:2009/A1:2012.

The following dates are fixed:

- latest date by which the document has (dop) 2012-12-21
to be implemented at national level by
publication of an identical national
standard or by endorsement
- latest date by which the national (dow) 2015-03-21
standards conflicting with the
document have to be withdrawn

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC [and/or CEN] shall not be held responsible for identifying any or all such patent rights.

Endorsement notice

The text of the International Standard IEC 60364-7-709:2009/A1:2012 was approved by CENELEC as a Harmonization Document without any modification.

Annex ZA
(normative)

Special national conditions

Special national condition: National characteristic or practice that cannot be changed even over a long period, e.g. climatic conditions, electrical earthing conditions.

NOTE If it affects harmonization, it forms part of the European Standard / Harmonization Document.

For the countries in which the relevant special national conditions apply these provisions are normative, for other countries they are informative.

<u>Clause</u>	<u>Special national condition</u>
---------------	-----------------------------------

709.531.2	Germany
------------------	----------------

first

paragraph	Every socket-outlet with a rated current up to 32 A shall be individually protected by an RCD having a rated residual operating current not exceeding 30 mA.
------------------	--

The Netherlands

Every socket-outlet with a rated current up to and including 32 A shall be individually protected by an RCD having a rated residual operating current not exceeding 30 mA.

709.531.2	Germany
------------------	----------------

second

paragraph	Every socket-outlet with a rated current up to 32 A shall be individually protected by an RCD having a rated residual operating current not exceeding 300 mA.
------------------	---

The Netherlands

Every socket-outlet with a rated current above 32 A shall be individually protected by an RCD having a rated residual operating current not exceeding 300 mA.

Annex ZB
(informative)

A-deviations

A-deviation: National deviation due to regulations, the alteration of which is for the time being outside the competence of the CENELEC member.

This Harmonization Document does not fall under any Directive of the EU.

In the relevant CEN-CENELEC countries these A-deviations are valid instead of the provisions of the European Standard until they have been removed.

<u>Clause</u>	<u>Deviation</u>
---------------	------------------

709.531.2 second paragraph	Spain (law R.D. 842/2002 ITC-BT-42)
---	---

In Spain, every socket-outlet shall be individually protected by an RCD having a rated residual operating current not exceeding 30 mA.
