This European Standard was approved by CEN on 30 August 1998.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the Central Secretariat has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This European Standard has been prepared by Technical Committee CEN/TC 324 “Castors and wheels”, the secretariat of which is held by DIN.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by March 1999, and conflicting national standards shall be withdrawn at the latest by March 1999

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Czech Republic, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and the United Kingdom.

1 Scope

This European Standard defines terms and symbols relating to castors and wheels.

NOTE 1: Castors and wheels is the English expression; in other languages the expression may be reversed e.g. in French "Roues et roulettes" and in German "Räder und Rollen".

NOTE 2: In addition to terms used in the three official CEN languages (English, French and German), this European Standard gives the equivalent terms in the Dutch, Finnish, Italian and Swedish languages; these are published under the responsibility of the national Committee/member body for Holland, Finland, Italy and Sweden. However, only the terms and definitions given in the official languages can be considered as EN terms and definitions.

2 Definitions

For the purposes of this European Standard, the following definitions apply:

2.1 Definitions relating to wheels

2.1.1 wheel and its constituent parts

2.1.1.1 wheel

de **Rad** // fi **pyörä** // fr **roue** // it **ruota** (furniture:) o **parte rotante** // nl **wiel** // sv **hjul** //

Circular structure able to rotate on an axle (2.2.1), either directly or with the use of bearing(s) (2.1.1.8). The external part of which is in contact with the ground (see figure 1).

Figure 1: wheel

2.1.1.2 hub

de **Nabe** // fi **napa** // fr **moyeu** // it **mozzo** // nl **naaf** // sv **nav** //

Central part of the wheel (2.1.1.1) to receive the axle (2.2.1) or the bearing(s) (2.1.1.8) (see figure 2)

Figure 2: hub

2.1.1.3 rim

de **Felgenbett** // fi **vanne** // fr **jante** // it **cerchio** // nl **velg** // sv **lötring** //

Outer profile of the wheel centre (2.1.1.5) (see figure 3).

Figure 3: rim

2.1.1.4 connecting flange

de **Steg** // fi **laippa** // fr **voile** // it **cartella** // nl **wielflens** // sv **hjulliv** //

Part of the wheel (2.1.1.1) between the hub (2.1.1.2) and the rim (2.1.1.3) (see figure 4).
