## Foreword

This document (EN 1429:2013) has been prepared by Technical Committee CEN/TC 336 "Bituminous binders", the secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by December 2013, and conflicting national standards shall be withdrawn at the latest by December 2013.

The main technical changes brought to EN 1429 are as follows:

- Less stringent precision requirements for the weighing scale to be used in 8.2 and Clause 9.
- More accurate definition of dilution procedures for viscous emulsions (8.2.9 and 8.3.8).
- Revision of procedure for determination of the storage stability by sieving (Clause 9).

**WARNING — The use of this European Standard may involve hazardous materials, operations and equipment. This European Standard does not purport to address all of the safety problems associated with its use. It is the responsibility of the user of this European Standard to establish appropriate safety and health practices and determine the applicability of regulatory limitations prior to use. Also, for environmental aspects, it is important to limit the quantities of products, solvents and energy sources to reduce the emissions in air and water and the wastes to the minimum required for a valid test realisation.**
