Fire-fighting hoses - Test methods

I.S. EN 15889:2011

Incorporating amendments/corrigenda/National Annexes issued since publication:

The National Standards Authority of Ireland (NSAI) produces the following categories of formal documents:

I.S. xxx: Irish Standard – national specification based on the consensus of an expert panel and subject to public consultation.

S.R. xxx: Standard Recommendation - recommendation based on the consensus of an expert panel and subject to public consultation.

SWiFT xxx: A rapidly developed recommendatory document based on the consensus of the participants of an NSAI workshop.

English Version

Fire-fighting hoses - Test methods

Tuyaux de lutte contre l'incendie - Méthodes d'essai

Feuerlöschschläuche - Prüfverfahren

This European Standard was approved by CEN on 4 June 2011.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

K.1 Test piece	34
K.2 Apparatus	34
K.3 Procedure	34
K.4 Test report	35
Annex L (normative) Test for fire-fighting hose assemblies	36
L.1 Test piece	36
L.2 Apparatus	36
L.3 Procedure	36
L.4 Test report	36
Annex M (normative) Pressure impulse test (fire-fighting suction hoses)	37
M.1 Test pieces	37
M.2 Apparatus	37
M.3 Test fluid	37
M.4 Conditioning	37
M.5 Procedure	37
M.6 Test report	37
Annex N (normative) Reinforcement fracture resistance test (type B hoses only) (fire-fighting suction hoses)	40
N.1 Test pieces	40
N.2 Apparatus	40
N.3 Conditioning	40
N.4 Procedure	40
N.5 Test report	42
Annex O (normative) Test for flexibility at ambient temperature (fire-fighting suction hoses)	43
O.1 Test piece	43
O.2 Apparatus	43
O.3 Procedure	43
O.4 Test report	43
Annex P (normative) Test for vacuum resistance with flexing (fire-fighting suction hoses)	45
P.1 Test piece	45
P.2 Apparatus	45
P.3 Procedure	45
P.4 Test report	45
Annex Q (normative) Test for resistance to kinking (lay-flat fire-fighting hoses)	46
Q.1 Test piece	46
Q.2 Apparatus	46
Q.3 Procedure	47
Q.4 Test report	47
Annex R (informative) Test methods from other EN and ISO standards	48
Bibliography	49

Foreword

This document (EN 15889:2011) has been prepared by Technical Committee CEN/TC 192 “Fire service equipment”, the secretariat of which is held by BSI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by January 2012, and conflicting national standards shall be withdrawn at the latest by January 2012.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

This European Standard details hose and hose assembly test methods collated mainly from published EN fire hose standards. Although no technical changes have been introduced, some changes to the format of the test methods had to be made to enable them to be included in this European Standard.

The published EN fire-fighting hose standards will be revised to remove the test method annexes following the publication of this European Standard.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.
