Irish Standard  
I.S. EN 15365:2010

Advanced technical ceramics - Mechanical properties of ceramic fibres at high temperature in a non-reactive environment - Determination of creep behaviour by the cold end method

## I.S. EN 15365:2010

*Incorporating amendments/corrigenda/National Annexes issued since publication:*

### The National Standards Authority of Ireland (NSAI) produces the following categories of formal documents:

I.S. xxx: Irish Standard – national specification based on the consensus of an expert panel and subject to public consultation.

S.R. xxx: Standard Recommendation - recommendation based on the consensus of an expert panel and subject to public consultation.

SWiFT xxx: A rapidly developed recommendatory document based on the consensus of the participants of an NSAI workshop.

<i>This document replaces:</i> CEN/TS 15365:2006	<i>This document is based on:</i> EN 15365:2010 CEN/TS 15365:2006	<i>Published:</i> 21 July, 2010 15 March, 2006
This document was published under the authority of the NSAI and comes into effect on: 5 August, 2010		ICS number: 81.060.30

English Version

**Advanced technical ceramics - Mechanical properties of ceramic fibres at high temperature in a non-reactive environment - Determination of creep behaviour by the cold end method**

Céramiques techniques avancées - Propriétés mécaniques des fibres céramiques à haute température sous environnement non-réactif - Détermination du comportement au fluage par la méthode des mors froids

Hochleistungskeramik - Mechanische Eigenschaften von Keramikfasern bei hohen Temperaturen in einer reaktionsfreien Umgebung - Bestimmung des Kriechverhaltens im Kaltverbindungsverfahren

This European Standard was approved by CEN on 25 June 2010.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Foreword.....	3
1 Scope .....	4
2 Normative references .....	4
3 Terms and definitions .....	4
4 Principle.....	7
5 Significance and use .....	8
6 Apparatus .....	8
6.1 Test installations.....	8
6.2 Load train.....	8
6.3 Test chamber.....	9
6.4 Set-up for heating .....	9
6.5 Temperature measurement.....	9
6.6 Control of deformation .....	9
6.7 Data recording system .....	9
6.8 Determination of fibre cross sectional area.....	9
7 Test specimens .....	9
7.1 Test specimen preparation .....	9
7.2 Number of test specimens .....	11
8 Test procedures .....	11
8.1 Determination of the temperature profile in the furnace .....	11
8.2 Test set-up: Determination of the temperature profile and of the different lengths of each temperature zone in the furnace .....	11
8.3 Test set-up: Loading considerations.....	12
8.4 Test technique.....	12
8.5 Test validity .....	14
9 Calculation of results .....	14
9.1 Creep stress .....	14
9.2 Creep strain at time $t$ .....	14
10 Test report .....	15
Bibliography .....	17

## **Foreword**

This document (EN 15365:2010) has been prepared by Technical Committee CEN/TC 184 "Advanced technical ceramics", the secretariat of which is held by BSI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by January 2011, and conflicting national standards shall be withdrawn at the latest by January 2011.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

This document supersedes CEN/TS 15365:2006.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.
