I.S. EN 12845:2015&AC:2016

Incorporating amendments/corrigenda/National Annexes issued since publication:

EN 12845:2015/AC:2016

The National Standards Authority of Ireland (NSAI) produces the following categories of formal documents:

I.S. xxx: Irish Standard — national specification based on the consensus of an expert panel and subject to public consultation.

S.R. xxx: Standard Recommendation — recommendation based on the consensus of an expert panel and subject to public consultation.

SWiFT xxx: A rapidly developed recommendatory document based on the consensus of the participants of an NSAI workshop.

This document replaces/revises/consolidates the NSAI adoption of the document(s) indicated on the CEN/CENELEC cover/Foreword and the following National document(s):

NOTE: The date of any NSAI previous adoption may not match the date of its original CEN/CENELEC document.

This document is based on:

EN 12845:2015

Ref. No.: EN 12845:2015/AC:2016 D/E/F

EN 12845:2015/AC:2016 (E)

1 Modification to 7.2.2.1, General

Delete at the end of the sentence "except when applying Annex P" to read:

"Authorities shall be consulted for buildings exceeding 12 m."

2 Modification to 10.1, General

In the last paragraph, add "horizontal" before "pumpsets" to read:

"The coupling between the driver and the pump of horizontal pumpsets shall be of a type which ensures that either can be removed independently and in such a way that pump internals can be inspected or replaced without affecting suction or discharge piping."

3 Modifications to 10.7.3, Calculated systems

In the 1st sentence, delete the first occurrence of "pumpset" and replace the 2nd occurrence of "pumpset" with "pump" to read:

"When measured by the supplier's test facility, the pump shall provide a pressure at least 0,5 bar higher than that required for the most unfavourable area."

In the 2nd sentence, replace "pumpset" with "pump" to read:

"The pump shall also be capable of providing the flow and pressure of the most favourable area at all water supply water levels."

4 Modification to 10.9.13.2, Site commissioning test

In the 1st sentence, add "more than 15 s or" before "less than 10 s rest" to read:

"When commissioning an installation the automatic starting system of the diesel engine shall be activated with the fuel supply isolated for the six cycles each of no less than 15 s cranking and no more than 15 s or less than 10 s rest".

5 Modification to 20.3.5.3, Water supply stop valves, alarm and non-return valves

Delete "dismantled," to read:

"All water supply stop valves, alarm and non-return valves shall be examined and replaced or overhauled as necessary."
