I.S. EN 50289-1-17:2015

Communication cables - Specifications for test methods - Part 1-17: Electrical test methods - Exogenous Crosstalk ExNEXT and ExFEXT

I.S. EN 50289-1-17:2015

Incorporating amendments/corrigenda/National Annexes issued since publication:

The National Standards Authority of Ireland (NSAI) produces the following categories of formal documents:

I.S. xxx: Irish Standard — national specification based on the consensus of an expert panel and subject to public consultation.

S.R. xxx: Standard Recommendation — recommendation based on the consensus of an expert panel and subject to public consultation.

SWiFT xxx: A rapidly developed recommendatory document based on the consensus of the participants of an NSAI workshop.

This document replaces/revises/consolidates the NSAI adoption of the document(s) indicated on the CEN/CENELEC cover/Foreword and the following National document(s):

NOTE: The date of any NSAI previous adoption may not match the date of its original CEN/CENELEC document.

This document is based on:

EN 50289-1-17:2015

Published:

2015-11-13

This document was published under the authority of the NSAI and comes into effect on:

2015-12-01

National Foreword

I.S. EN 50289-1-17:2015 is the adopted Irish version of the European Document EN 50289-1-17:2015, Communication cables - Specifications for test methods - Part 1-17: Electrical test methods - Exogenous Crosstalk ExNEXT and ExFEXT

This document does not purport to include all the necessary provisions of a contract. Users are responsible for its correct application.

Compliance with this document does not of itself confer immunity from legal obligations.

In line with international standards practice the decimal point is shown as a comma (,) throughout this document.

English Version

Communication cables - Specifications for test methods - Part 1-17: Electrical test methods - Exogenous Crosstalk ExNEXT and ExFEXT

Câbles de communication - Spécifications des méthodes d'essai - Partie 1-17: Méthodes d'essais électriques - Diaphonie exogène ExNEXT et ExFEXT

Kommunikationskabel - Spezifikationen für Prüfverfahren - Teil 1-17: Elektrische Prüfverfahren - Externes Nebensprechen ExNEXT und ExFEXT (Nebensprechen zwischen Kabeln)

This European Standard was approved by CENELEC on 2015-09-28. CENELEC members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Bulgaria, Croatia, Cyprus, the Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, the Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

European foreword

This document (EN 50289-1-17:2015) has been prepared by SC46 XC “Multicore, multipair and quad data communication cables” of CLC/TC 46X “Communication cables”.

The following dates are fixed:

- latest date by which this document has to (dop) 2016-09-28
be implemented at national level by
publication of an identical national
standard or by endorsement
- latest date by which the national standards (dow) 2018-09-28
conflicting with this
document have to be withdrawn

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CENELEC [and/or CEN] shall not be held responsible for identifying any or all such patent rights.

This document has been prepared under a mandate given to CENELEC by the European Commission and the European Free Trade Association.

EN 50289-1-17:2015 (E)

1 Scope

Part 1-17 of EN 50289 details the test methods used to determine the cable to cable (exogenous) crosstalk between 4 pair cables used in analogue and digital communication systems. These exogenous Crosstalk effects are near end crosstalk (ExNEXT), far end crosstalk (ExFEXT), equal level far end crosstalk (ExELFEXT).

This document should be read in conjunction with EN 50289-1-1, which contains essential provisions for its application. Reference is made also to EN 50289-1-10 in which the definitions and test methods for crosstalk is given.

The exogenous crosstalk test method is described, as well as the treatment of the results to simulate the installation condition of a disturbed cable in contact with six disturbing cables.

2 Normative references

The following documents, in whole or in part, are normatively referenced in this document and are indispensable for its application. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EN 50290-1-2, *Communication cables — Part 1-2: Definitions*

IEC 61156-1:2007, *Multicore and symmetrical pair/quad cables for digital communications — Part 1: Generic specification*

3 Terms and definitions

For the purposes of this document, the terms and definitions given in EN 50290-1-2 together with the following apply.

3.1

exogenous near end crosstalk (NEXT)

when tested in accordance with 6.3.7 to 6.3.9 of IEC 61156-1:2007

$$\text{ExNEXT} = 10 \times \text{LOG}_{10}(\text{P}_{1\text{N}}/\text{P}_{2\text{N}}) \text{ (dB)} \quad (1)$$

Where

- $\text{P}_{1\text{N}}$ = input power into the disturbing pair;
- $\text{P}_{2\text{N}}$ = output power of the disturbed pair cable at near end,
where the disturbing and disturbed pairs are in different cables;
- ExNEXT= exogenous near end crosstalk.

3.2

exogenous far end crosstalk

3.2.1

exogenous input/output-FEXT

$$\text{Ex IO FEXT} = 10 \times \text{LOG}_{10}(\text{P}_{1\text{N}}/\text{P}_{2\text{F}}) \text{ (dB)} \quad (2)$$
