National Annex Foreword	2
Annex NA (informative) Irish National Annex to I.S. EN 1555-1:2010 — Plastics piping systems for the supply of gaseous fuels — Polyethylene (PE) — Part 1: General	3
NA.1 Introduction	3
NA.2 Scope	3
NA.3 Normative references.....	3
NA.4 Base compound colour of peelable pipe	3
NA.5 External peelable layer colour scheme of peelable pipe	3

NA:2015 to I.S. EN 1555-1:2010

National Annex Foreword

Each country implementing EN 1555-1:2010 may establish local detailed requirements for the colour of the compound for the base pipe of peelable pipe.

This National Annex of I.S. EN 1555-1:2010 gives requirements for the colour of the compound for the base pipe of peelable pipe and requirements for the colour scheme of the external peelable layer.

National Annexes must always be used in conjunction with the relevant European Standard.

National Annexes are reviewed as necessary e.g. when a new edition, an amendment or a corrigendum is issued. This National Annex identifies what amendments/corrigenda are addressed. The user should check that the National Annex addresses the latest changes to the European Standard. Previews of all documents are available on www.standards.ie. Any questions should be directed to NSAI.

Where a European Standard has been changed (revised/amended/corrected) and the National Annex has yet to be revised to account for the change(s), the National Annex for the previous version is available. Engineering judgement must be applied if using guidance contained therein e.g. when selecting appropriate parameters.

The table below indicates which changes have been considered by the relevant National Committee during the life of this edition of the European Standard.

Publication	Date published	Assessed and taken into account if relevant
I.S. EN 1555-1:2010	2010-09-20	Yes
