KAA

It has been brought to our attention that this document, issued on 2010-10-27 (CEN Standards Publications Weekly Output Reference 2010/10/IV) requires modification.

The Key for Equation 1 has been corrected:

HB is the Brinell hardness in newton per square millimetre;

We apologise for any inconvenience this may cause.

This page is intentionally left BLANK.

English Version

Wood flooring - Determination of resistance to indentation - Test method

Planchers en bois - Détermination de la résistance au poinçonnement - Méthode d'essai

Holzfußböden - Bestimmung des Eindruckwiderstands - Prüfmethode

This European Standard was approved by CEN on 19 September 2010.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and United Kingdom.

Foreword

This document (EN 1534:2010) has been prepared by Technical Committee CEN/TC 175 "Round and sawn timber", the secretariat of which is held by AFNOR.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by April 2011, and conflicting national standards shall be withdrawn at the latest by April 2011.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

This document supersedes EN 1534:2000.

The main changes compared to the previous edition are :

- a) Modification in the definitions (3.5) and (3.6);
- b) A new definition has been added "test specimen" (3.7);
- c) A new definition has been added "component" (3.8);
- d) A new definition has been added "Hardness *HB*" (3.9).

This document is one of a series of standards concerning wood flooring.

According to the CEN/CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland and the United Kingdom.
