Irish Standard
I.S. EN 415-10:2014

Safety of packaging machines - Part 10: General Requirements

I.S. EN 415-10:2014

Incorporating amendments/corrigenda/National Annexes issued since publication:

The National Standards Authority of Ireland (NSAI) produces the following categories of formal documents:

I.S. xxx: Irish Standard — national specification based on the consensus of an expert panel and subject to public consultation.

S.R. xxx: Standard Recommendation — recommendation based on the consensus of an expert panel and subject to public consultation.

SWiFT xxx: A rapidly developed recommendatory document based on the consensus of the participants of an NSAI workshop.

This document replaces/revises/consolidates the NSAI adoption of the document(s) indicated on the CEN/CENELEC cover/Foreword and the following National document(s):

NOTE: The date of any NSAI previous adoption may not match the date of its original CEN/CENELEC document.

This document is based on:

EN 415-10:2014

Published:

2014-01-22

This document was published under the authority of the NSAI and comes into effect on:

EUROPEAN STANDARD

EN 415-10

NORME EUROPÉENNE

EUROPÄISCHE NORM

January 2014

ICS 55.200

English Version

Safety of packaging machines - Part 10: General Requirements

Sécurité des machines d'emballage - Partie 10:
Prescriptions générales

Sicherheit von Verpackungsmaschinen - Teil 10:
Allgemeine Anforderungen

This European Standard was approved by CEN on 12 October 2013.

CEN members are bound to comply with the CEN/CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration. Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN-CENELEC Management Centre or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to the CEN-CENELEC Management Centre has the same status as the official versions.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

4.11 Hazards due to neglecting hygienic design principles.....	15
4.12 Hazards caused by failures	15
4.12.1 General.....	15
4.12.2 Failure of power supplies	15
4.12.3 Failure of safety related parts of control systems	16
4.12.4 Failure of electronic drive systems.....	16
4.13 Hazards caused by the presence of stored energy.....	16
4.14 Hazards due to remote diagnostics or control.....	16
4.15 Reasonably foreseeable misuse	16
4.16 Hazards from specific elements or processes of packaging machines	17
4.16.1 Cutting devices	17
4.16.2 Sealing devices	17
4.16.3 Film reel unwind mechanisms.....	18
4.16.4 Conveyors	18
4.16.5 Handles and hand-wheels.....	20
4.16.6 Size or product changing.....	20
4.16.7 Hot melt adhesive equipment.....	21
4.16.8 Modified atmosphere packaging.....	21
5 Safety requirements and/or protective measures	21
5.1 General.....	21
5.2 Requirements to minimize mechanical risks	22
5.2.1 Protective measures against risks from moving parts.....	22
5.2.2 Requirements to prevent slip, trip and fall hazards	52
5.2.3 Stability of machines	52

5.2.4	Prevention of hazards from movable guards	53
5.3	Supply disconnecting (isolating) device.....	53
5.4	Pneumatic and hydraulic equipment.....	53
5.5	Electrical equipment	54
5.5.1	General	54
5.5.2	Protection against electric shock	54
5.5.3	Degree of protection	54
5.6	Electrostatic phenomena.....	54
5.7	Thermal hazards	55
5.7.1	Hot surfaces	55
5.7.2	Cold surfaces	55
5.8	Noise reduction	55
5.9	Radiation	56
5.9.1	General	56
5.9.2	Laser radiation.....	56
5.10	Measures to control hazards generated by products, substances and materials	57
5.10.1	Measures to control hazards generated by substances	57
5.10.2	Measures to control hazards generated by products.....	57
5.10.3	Measures to control hazards generated by packaging materials	59
5.11	Ergonomic design principles	60
5.11.1	Operating the machine.....	60
5.11.2	Operator interface and machine mounted control devices	60
5.11.3	Handling machine parts.....	60
5.11.4	Loading packaging materials	60
5.11.5	Loading products or unloading packages.....	61
5.11.6	Size or product changes.....	61
5.11.7	Cleaning the machine	61
5.11.8	Maintenance.....	61
5.11.9	Moving the machine	61
5.11.10	Lighting.....	62
5.12	Hygienic design requirements	62
5.13	Failures of power supplies	62
5.14	Control functions.....	63
5.14.1	General	63
5.14.2	Normal stop.....	63
5.14.3	Safety related stop functions	63
5.14.4	Operational stop	63
5.14.5	Emergency stop and emergency switching off.....	63
5.14.6	Safety related stops of variable speed electrical power drive systems	64
5.14.7	Stopping time.....	65
5.15	Failures of safety related parts of control systems	65
5.16	Prevention of unexpected start up	65
5.16.1	General	65
5.16.2	Requirements for machines where whole body access is possible	65
5.16.3	Operations with open guards.....	66
5.17	Stored energy	67
5.18	Requirements for remote diagnostics or control.....	67
5.19	Reasonably foreseeable misuse	68
5.20	Requirements for specific elements or processes of packaging machines	68
5.20.1	Cutting devices.....	68
5.20.2	Sealing devices.....	69
5.20.3	Film reel unwind mechanisms	69
5.20.4	Conveyors	69
5.20.5	Handles and hand-wheels	72
5.20.6	Size or product changing	72
5.20.7	Hot melt adhesive equipment	73
5.20.8	Modified atmosphere packaging	74
6	Verification of safety requirements and measures	74

Annex ZA (informative)	Relationship between this European Standard and the Essential Requirements of EU Directive 2006/42/EC.....	89
Bibliography	92

Foreword

This document (EN 415-10:2014) has been prepared by Technical Committee CEN/TC 146 "Packaging machines - Safety", the secretariat of which is held by UNI.

This European Standard shall be given the status of a national standard, either by publication of an identical text or by endorsement, at the latest by July 2014, and conflicting national standards shall be withdrawn at the latest by July 2014.

Attention is drawn to the possibility that some of the elements of this document may be the subject of patent rights. CEN [and/or CENELEC] shall not be held responsible for identifying any or all such patent rights.

This document has been prepared under a mandate given to CEN by the European Commission and the European Free Trade Association, and supports essential requirements of EU Directive(s).

For relationship with EU Directive(s), see informative Annex ZA, which is an integral part of this document.

This standard is part of a series of standards comprising the following parts:

- EN 415-1, *Packaging machines safety — Part 1: Terminology and classification of packaging machines and associated equipment*;
- EN 415-2, *Packaging machines safety — Part 2: Pre-formed rigid container packaging machines*;
- EN 415-3, *Safety of packaging machines — Part 3: Form, fill and seal machines*;
- EN 415-4, *Safety of packaging machines — Part 4: Palletizers and depalletizers*;
- EN 415-5, *Safety of packaging machines — Part 5: Wrapping machines*;
- EN 415-6, *Safety of packaging machines — Part 6: Pallet wrapping machines*;
- EN 415-7, *Safety of packaging machines — Part 7: Group and secondary packaging machines*;
- EN 415-8, *Safety of packaging machines — Part 8: Strapping machines*;
- EN 415-9, *Safety of packaging machines — Part 9: Noise measurement methods for packaging machines, packaging lines and associated equipment, grade of accuracy 2 and 3*;
- EN 415-10, *Safety of packaging machines — Part 10: General requirements* (the present document).

According to the CEN-CENELEC Internal Regulations, the national standards organizations of the following countries are bound to implement this European Standard: Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and the United Kingdom.

EN 415-10:2014 (E)

Introduction

Packaging machines are used extensively in Europe in an increasingly wide range of industries. They contain several significant hazards that have the potential to cause serious injury.

This document is a Type C standard as defined in the Introduction of EN ISO 12100:2010.

The requirements of the machine specific parts of EN 415 take precedence over the requirements of EN 415-10. The requirements of the machine specific parts of EN 415 may supplement or modify the corresponding clauses of EN 415-10.

The machinery concerned and the extent to which hazards, hazardous situations and events are covered are indicated in the scope of this standard.

When provisions of this Type C standard are different from those, which are stated in Type A or B standards, the provisions of this Type C standard take precedence.

1 Scope

This European Standard gives general requirements for packaging machines which are defined in the scope of EN 415-1 or are in the scope of another relevant machine specific part of EN 415. When used together with a relevant machine specific part of EN 415, it gives the requirements for that specific type of machine.

This document deals with safety requirements and their verification for design, construction, installation, commissioning, operation, adjustment, maintenance and cleaning of packaging machines when used as intended and under the conditions of misuse foreseeable by a manufacturer.

The extent to which hazards, hazardous situations and events are covered is indicated in Clause 4.

The hazards on a specific machine can vary depending on its working principle; the type, size and mass of the product; the packaging material; auxiliary equipment attached to the machine and the environment in which the machine is used. If the machine presents hazards that are not dealt with in this standard, the manufacturer should assess these hazards by using the principles detailed in EN ISO 12100:2010. Such deviations or additions are outside the scope of this standard.

Exclusions

This European Standard is not applicable to the following:

- machines that were manufactured before the date of publication of this document by CEN.

This standard does not consider the following:

- the risk resulting from the use of machines in public accessed areas.

NOTE For machines used in public accessed areas different or additional requirements can apply. It is the responsibility of the manufacturer to identify such additional risks, which are outside the scope of this standard or such deviating risks which arise from this specific use, and provide suitable protective measures in accordance with EN ISO 12100.

- the use of packaging machines in potentially explosive atmospheres;
- specific health, safety or hygiene hazards associated with the products that may be handled by the machines, but does include general advice on this subject;
- hazards that may be associated with decommissioning packaging machines.

2 Normative references

The following documents, in whole or in part, are normatively referenced in this document and are indispensable for its application. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.

EN 349, *Safety of machinery - Minimum gaps to avoid crushing of parts of the human body*

EN 415-1, *Packaging machines safety - Part 1: Terminology and classification of packaging machines and associated equipment*

EN 415-9, *Safety of packaging machines - Part 9: Noise measurement methods for packaging machines, packaging lines and associated equipment, grade of accuracy 2 and 3*

EN 614-1, *Safety of machinery - Ergonomic design principles - Part 1: Terminology and general principles*
