Irish Standard Recommendation
S.R. CEN/TR 13737-2:2014

Gas infrastructure - Implementation Guide
for Functional Standards prepared by CEN/TC
234 - Part 2: National Pages related to
CEN/TC 234 standards

S.R. CEN/TR 13737-2:2014

Incorporating amendments/corrigenda/National Annexes issued since publication:

The National Standards Authority of Ireland (NSAI) produces the following categories of formal documents:

I.S. xxx: Irish Standard — national specification based on the consensus of an expert panel and subject to public consultation.

S.R. xxx: Standard Recommendation — recommendation based on the consensus of an expert panel and subject to public consultation.

SWiFT xxx: A rapidly developed recommendatory document based on the consensus of the participants of an NSAI workshop.

This document replaces/revises/consolidates the NSAI adoption of the document(s) indicated on the CEN/CENELEC cover/Foreword and the following National document(s):

NOTE: The date of any NSAI previous adoption may not match the date of its original CEN/CENELEC document.

This document is based on:

CEN/TR 13737-2:2014

Published:

2014-12-17

This document was published under the authority of the NSAI and comes into effect on:

2015-01-19

**Gas infrastructure - Implementation Guide for Functional
Standards prepared by CEN/TC 234 - Part 2: National Pages
related to CEN/TC 234 standards**

Infrastructure de gaz - Uide d'implémentation des normes
fonctionnelles élaborées par CEN/TC 234 Gas
infrastructure - Partie 2: Pages nationales relatives aux
normes de CEN/TC 234

Gasinfrastruktur - Leitfaden zur Implementierung von
Funktionalnormen erarbeitet vom CEN/TC 234
Gasinfrastruktur - Teil 2: Nationale Seiten bezüglich der
CEN/TC 234 Normen

This Technical Report was approved by CEN on 23 September 2014. It has been drawn up by the Technical Committee CEN/TC 234.

CEN members are the national standards bodies of Austria, Belgium, Bulgaria, Croatia, Cyprus, Czech Republic, Denmark, Estonia, Finland, Former Yugoslav Republic of Macedonia, France, Germany, Greece, Hungary, Iceland, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Norway, Poland, Portugal, Romania, Slovakia, Slovenia, Spain, Sweden, Switzerland, Turkey and United Kingdom.

Contents	Page
Foreword.....	14
Introduction	15
1 Scope	17
2 Normative References	17
3 Relevant national legislation/ regulation and standards for gas pipelines with a maximum operating pressure greater (MOP) greater than 16 bar to which EN 1594 is applicable	19
3.1 Page for Austria (EN 1594).....	19
3.1.1 Relevant Austrian legislation/regulations for gas pipelines with a maximum operating pressure greater than 16 bar (gas transmission) to which EN 1594:2013 is applicable	19
3.1.2 More restrictive requirements in Austrian legislation/regulations	20
3.2 Page of Finland (EN 1594).....	20
3.2.1 Relevant Finnish legislation/regulations for gas pipelines with a maximum operating pressure greater than 16 bar to which EN 1594 is applicable.....	20
3.2.2 More restrictive requirements in Finnish legislation/regulations.....	21
3.3 Page for France (EN 1594)	21
3.3.1 Relevant French legislation/regulations for gas pipelines with a maximum operating pressure greater than 16 bar to which EN 1594 (Canalisations pour pression maximale de service supérieur à 16 bar - Prescriptions fonctionnelles) is applicable.....	21
3.3.2 More restrictive requirements in French legislation/regulations	23
3.4 Page for Germany (EN 1594)	23
3.4.1 Relevant German legislation/regulations for gas pipelines with a maximum operating pressure greater than 16 bar to which EN 1594:2013 is applicable	23
3.4.2 More restrictive requirements in German legislation/regulations	25
3.5 Page for Greece (EN 1595).....	25
3.5.1 Relevant Greek legislation/regulations for gas pipelines with a maximum operating pressure greater than 16 bar to which EN 1594 is applicable.....	25
3.6 Page for Hungary (EN 1594)	25
3.6.1 Relevant Hungarian legislation/regulations for gas pipelines with a maximum operating pressure greater than 16 bar to which EN 1594 is applicable.....	25
3.6.2 More restrictive requirements in Hungarian legislation/regulations	26
3.7 Page for Ireland (EN 1594)	26
3.7.1 Relevant Irish legislation/regulations for gas pipelines with a maximum operating pressure greater than 16 bar (gas transmission) to which EN 1594 is applicable	26
3.7.2 More restrictive requirements in Irish legislation/regulations	27
3.8 Page for Italy (EN 1594).....	27
3.8.1 Relevant Italian legislation/regulations for gas pipelines with a maximum operating pressure greater than 16 bar to which EN 1594 is applicable.....	27
3.8.2 More restrictive requirements in Italian legislation/regulations	28
3.9 Page for the Netherlands (EN 1594).....	28
3.9.1 Relevant Dutch legislation/regulations for gas pipelines with a maximum operating pressure greater than 16 bar to which EN 1594 is applicable.....	28
3.9.2 More restrictive requirements in Dutch legislation/regulations	30
3.10 Page for România (EN 1594).....	30
3.10.1 Relevant Romanian legislation/regulations for gas pipelines with a maximum operating pressure greater than 16 bar to which EN 1594 is applicable.....	30
3.10.2 More restrictive requirements in Romanian legislation/regulations	30

4	Relevant national legislation/ regulation and standards for gas pipework in buildings with a maximum operating pressure less than or equal to 5 bar (gas installation) to which EN 1775 is applicable	30
4.1	General	30
4.2	Page for Austria (EN 1775)	30
4.2.1	Relevant Austrian legislations/regulations for gas installation in buildings to which EN 1775 is applicable	30
4.2.2	More restrictive requirements in Austrian legislation/regulations	31
4.3	Page for Belgium (EN 1775).....	31
4.3.1	Relevant Belgian legislations/regulations for gas installation in buildings to which EN 1775 is applicable	31
4.3.2	More restrictive requirements in Belgian legislation/regulations	32
4.4	Page for Finland (EN 1775).....	32
4.4.1	Relevant Finnish legislations/regulations for gas installation in buildings to which EN 1775 is applicable	32
4.4.2	More restrictive requirements in Finnish legislation/regulations	33
4.5	Page for France (EN 1775).....	33
4.5.1	Relevant French legislations/regulations for gas installation in buildings to which EN 1775 is applicable	33
4.5.2	More restrictive requirements in French legislation/regulations	35
4.6	Page for Germany.....	35
4.6.1	Relevant German legislations/regulations for gas installation in buildings to which EN 1775 is applicable	35
4.6.2	More restrictive requirements in German legislation/regulations.....	37
4.7	Page of Greece (EN 1775).....	38
4.7.1	Relevant Greek legislations/regulations for gas installation in buildings to which EN 1775 is applicable	38
4.8	Page of Hungary (EN 1775).....	38
4.8.1	Relevant Hungarian legislations/regulations for gas installation in buildings to which EN 1775 is applicable	38
4.8.2	More restrictive requirements in Hungarian legislation/regulations	38
4.9	Page of Ireland (EN 1775)	38
4.9.1	Relevant Irish legislations/regulations for gas installation in buildings to which EN 1775 is applicable	38
4.9.2	More restrictive requirements in Irish legislation/regulations.....	39
4.10	Page of Italy (EN 1775).....	40
4.10.1	Relevant Italian legislations/regulations for gas installation in buildings to which EN 1775 is applicable	40
4.10.2	More restrictive requirements in Italian legislation/regulations.....	42
4.11	Page for the Netherlands (EN 1775)	42
4.11.1	Relevant Dutch legislations/regulations for gas installation in buildings to which EN 1775 is applicable	42
4.11.2	More restrictive requirements in Dutch legislation/regulations	44
4.12	Page for România	44
4.12.1	Relevant România legislations/regulations for gas installation in buldings to which EN 1775 is applicable	44
4.12.2	More restrictive requirements in România legislation/regulations	44
4.13	Page for Sweden (EN 1775)	45
4.13.1	Relevant Swedish legislations/regulations for gas installation in buildings to which EN 1775 is applicable	45
4.13.2	More restrictive requirements in Swedish legislation/regulations.....	45
4.13.3	Clauses to note regarding EN 1775:2007.....	45
4.14	Page for Spain (EN 1775).....	46
4.14.1	Relevant Spanish legislations/regulations for gas installation in buildings to EN 1775 is applicable	46
4.14.2	More restrictive requirements in Spanish legislation/regulations	48
4.15	Page for UK	48

CEN/TR 13737-2:2014 (E)

5	Relevant national legislation/ regulation for gas metering to which EN 1776 is applicable.....	49
5.1	Page for Austria (EN 1776).....	49
5.1.1	Relevant Austrian legislation/regulations for gas metering to which EN 1776 is applicable.....	49
5.1.2	More restrictive requirements in Austrian legislation/regulations.....	50
5.2	Page for Belgium (EN 1776).....	50
5.2.1	Relevant Belgian legislation/regulations for gas metering to which EN 1776 is applicable.....	50
5.3	Page for France (EN 1776).....	51
5.3.1	Relevant national legislation/regulation for gas measuring to which EN 1776 is applicable.....	51
5.3.2	More restrictive requirements in French legislation/regulations.....	52
5.4	Page for Germany (EN 1776).....	52
5.4.1	Relevant German legislation/regulations for gas metering to which EN 1776 is applicable.....	52
5.4.2	More restrictive requirements in German legislation/regulations.....	55
5.5	Page for Greece (EN 1776).....	55
5.5.1	Relevant Greek legislation/regulations for gas metering to which EN 1776 is applicable.....	55
5.6	Page for Hungary (EN 1776).....	55
5.6.1	Relevant Hungarian legislation/regulations for gas metering to which EN 1776 is applicable.....	55
5.6.2	More restrictive requirements in Hungarian legislation/regulations.....	56
5.7	Page for Ireland (EN 1776).....	56
5.7.1	Relevant Irish legislation/regulations for gas metering to which EN 1776 is applicable.....	56
5.7.2	More restrictive requirements in Irish legislation/regulations.....	56
5.8	Page for Italy (EN 1776).....	57
5.8.1	Relevant Italian legislation/regulations for gas metering to which EN 1776 is applicable.....	57
5.8.2	More restrictive requirements in Italian legislation/regulations.....	58
5.9	Page for the Netherlands (EN 1776).....	58
5.9.1	Relevant Dutch legislation/regulations for gas metering to which EN 1776 is applicable.....	58
5.9.2	More restrictive requirements in Dutch legislation/regulations.....	58
5.10	Page for România (EN 1776).....	59
5.10.1	Relevant Romanian legislation/regulation for gas metering to which EN 1776 is applicable.....	59
5.10.2	More restrictive requirements in Romanian legislation/regulations.....	59
5.11	Page for Spain (EN 1776).....	59
5.11.1	Relevant Spanish legislation/regulations for gas metering to which EN 1776 is applicable.....	59
5.11.2	More restrictive requirements in Spanish legislation/regulations.....	61
5.11.3	General.....	61
5.12	Page for UK.....	61
6	Relevant national legislation/ regulation for underground storage of gas to which EN 1918-1 to -5 is applicable.....	62
6.1	Page for Austria (EN 1918-1 to -5).....	62
6.1.1	Relevant legislation/regulation for underground storage of gas to which EN 1918-1 to -5 are applicable.....	62
6.1.2	More restrictive requirements in Austria legislation/regulations.....	63
6.2	Page for Finland (EN 1918-1 to EN 1918-5).....	63
6.2.1	Relevant Finnish legislation/regulation for underground storage of gas to which EN 1918-1 to - EN 1918-5 are applicable.....	63
6.2.2	More restrictive requirements in Finnish legislation/regulations.....	63
6.3	Page for France (EN 1918-1 to EN 1918-5).....	64
6.3.1	Relevant French legislation/regulation for underground storage of gas to which EN 1918-1 to - EN 1918-5 (Stockage souterrain de gaz) are applicable.....	64
6.3.2	More restrictive requirements in French legislation/regulations.....	65
6.4	Page for Germany (EN 1918-1 to EN 1918-5).....	65
6.4.1	Relevant German legislation/regulation for underground storage of gas to which EN 1918-1 to EN 1918-5 are applicable.....	65
6.4.2	More restrictive requirements in German legislation/regulations.....	68
6.5	Page for Greece (EN 1918-1 to EN 1918-5).....	68
6.5.1	Relevant Greek legislation/regulation for underground storage of gas to which EN 1918-1 to EN 1918-5 are applicable.....	68

6.6	Page for Hungary (EN 1918-1 to EN 1918-5)	68
6.6.1	Relevant Hungarian legislation/regulation for underground storage of gas to which EN 1918-1 to EN 1918-5 are applicable.....	68
6.6.2	More restrictive requirements in Hungarian legislation/regulations	69
6.7	Page for Ireland (EN 1918-1 to EN 1918-5).....	69
6.7.1	Relevant Irish legislation/regulation for underground storage of gas to which EN 1918-1 to EN 1918-5 are applicable	69
6.7.2	More restrictive requirements in Irish legislation/regulations.....	69
6.8	Page for Italy (EN 1918-1 to EN 1918-5).....	70
6.8.1	Relevant Italian legislation/regulation for underground storage of gas to which EN 1918-1 to EN 1918-5 are applicable	70
6.9	Page for the Netherlands (EN 1918-1 to EN 1918-5)	71
6.9.1	Relevant Dutch legislation/regulation for underground storage of gas to which EN 1918-1 to EN 1918-5 are applicable	71
6.10	Page for Spain (EN 1918-1 to EN 1918-5)	71
6.11	Page for UK	71
7	Relevant national legislation/ regulation and standards for gas pipelines with maximum operating pressure up to and equal to 16 bar to which EN 12007-1:2012 to EN 12007-4 is applicable	72
7.1	Page for Austria (EN 12007-1 to EN 12007-4)	72
7.1.1	Relevant Austrian legislation/regulations for gas pipelines with maximum operating pressure up to and equal to 16 bar (gas distribution) to which EN 12007-1 to EN 12007-4 is applicable	72
7.1.2	More restrictive requirements in Austrian legislation/ regulations.....	74
7.2	Page for Finland (EN 12007-1 to EN 12007-4)	74
7.2.1	Relevant Finnish legislation/regulations for gas pipelines with maximum operating pressure up to and equal to 16 bar to which EN 12007-1 to EN 12007-4 is applicable	74
7.2.2	More restrictive requirements in Finnish legislation/ regulations	75
7.3	Page for France (EN 12007-1 to EN 12007-4).....	75
7.3.1	Relevant French legislation/regulations for gas pipelines with maximum operating pressure up to and equal to 16 bar to which EN 12007-1 to EN 12007-4 (Canalisations pour pression maximale de service inférieure ou égale à 16 bar) is applicable.....	75
7.4	Page for Germany (EN 12007-1 to -4)	77
7.4.1	Relevant German legislation/regulations for gas pipelines with maximum operating pressure up to and equal to 16 bar (gas distribution) to which EN 12007-1 to -4 is applicable	77
7.4.2	More restrictive requirements in German legislation/ regulations.....	79
7.5	Page for Greece (EN 12007-1 to EN 12007-4).....	79
7.5.1	Relevant Greek legislation/regulations for gas pipelines with maximum operating pressure up to and equal to 16 bar to which EN 12007-1 to EN 12007-4 is applicable	79
7.6	Page for Hungary (EN 12007-1 to EN 12007-4)	79
7.6.1	Relevant Hungarian legislation/regulations for gas pipelines with maximum operating pressure up to and equal to 16 bar (gas distribution) to which EN 12007-1 to EN 12007-4 is applicable	79
7.6.2	More restrictive requirements in Hungarian legislation/ regulations	80
7.7	Page for Ireland (EN 12007-1 to EN 12007-4).....	80
7.7.1	Relevant Irish legislation/regulations for gas pipelines with maximum operating pressure up to and equal to 16 bar to which EN 12007-1 to EN 12007-4 is applicable	80
7.7.2	More restrictive requirements in Irish legislation/ regulations.....	81
7.8	Page for Italy (EN 12007-1 to EN 12007-4).....	81
7.8.1	More restrictive requirements in Italian legislation/ regulations.....	81
7.9	Page for the Netherlands (EN 12007-1 to EN 12007-4)	81
7.9.1	Relevant Dutch legislation/regulations for gas pipelines with maximum operating pressure up to and equal to 16 bar to which EN 12007-1 to EN 12007-4 is applicable	81
7.9.2	More restrictive requirements in Dutch legislation/regulations	83
7.10	Page for Spain (EN 12007-1 to EN 12007-4).....	84

CEN/TR 13737-2:2014 (E)

7.10.1	Relevant Spanish legislation/regulations for gas pipelines with maximum operating pressure up to and equal to 16 bar to which EN 12007-1 to EN 12007-4 is applicable	84
7.10.2	More restrictive requirements in Spanish legislation/ regulations	85
7.11	Page for UK	86
8	Relevant national legislation/ regulation for service lines to which EN 12007-5 is applicable	87
8.1	Page for Austria (EN 12007-5)	87
8.1.1	Relevant Austrian legislation/regulations for service lines to which EN 12007-5 is applicable	87
8.1.2	More restrictive requirements in Austrian legislation/ regulations	88
8.2	Page for Finland (EN 12007-5)	88
8.2.1	Relevant Finnish legislation/regulations for service lines to which EN 12007-5 is applicable is applicable.....	88
8.2.2	More restrictive requirements in Finnish legislation/ regulations.....	89
8.3	Page for France (EN 12007-5).....	89
8.3.1	French legislation/regulations for service lines to which EN 12007-5 (Systèmes d'alimentation en gaz - Branchements) is applicable	89
8.3.2	National law	89
8.4	Page for Germany (EN 12007-5)	91
8.4.1	Relevant German legislation/regulations for service lines to which EN 12007-5 is applicable	91
8.4.2	More restrictive requirements in German legislation/ regulations	91
8.5	Page for Greece (EN 12007-5).....	92
8.5.1	Relevant Greek legislation/regulations for service lines to which EN 12007-5 is applicable is applicable	92
8.6	Page for Hungary (EN 12007-5)	92
8.6.1	Relevant Hungarian legislation/regulations for service lines to which EN 12007-5 is applicable	92
8.6.2	More restrictive requirements in Hungarian legislation/ regulations.....	92
8.7	Page for Ireland (EN 12007-5).....	92
8.7.1	Relevant Irish legislation/regulations for service lines to which EN 12007-5 is applicable is applicable	92
8.7.2	More restrictive requirements in Irish legislation/ regulations	93
8.8	Page for Italy (EN 12007-5).....	93
8.8.1	Relevant Italian legislation/regulations for service lines to which EN 12007-5 is applicable.....	93
8.8.2	More restrictive requirements in Italian legislation/ regulations	96
8.9	Page for the Netherlands (EN 12007-5)	97
8.9.1	Relevant Dutch legislation/regulations for service lines to which EN 12007-5 is applicable is applicable	97
8.9.2	More restrictive requirements in Dutch legislation/regulations	98
8.10	Page for Spain (EN 12007-5)	98
8.10.1	Relevant Spanish legislation/regulations for service lines to which EN 12007-5 is applicable is applicable.....	98
8.10.2	More restrictive requirements in Spanish legislation/ regulations	100
8.11	Page for UK	100
9	Relevant national legislation/ regulation for gas pressure regulating stations for transmission and distribution to which EN 12186 is applicable.....	101
9.1	Page for Austria (EN 12186).....	101
9.1.1	Relevant Austrian legislation/regulations for gas pressure regulating stations for transmission and distribution to which EN 12186 is applicable.....	101
9.1.2	More restrictive requirements in (specify country/ nationality) legislation/regulations	103
9.2	Page for Finland (EN 12186)	103
9.2.1	Relevant Finnish legislation/regulations for gas pressure regulating stations for transmission and distribution to which EN 12186 is applicable.....	103
9.2.2	More restrictive requirements in (specify country/ nationality) legislation/regulations	103
9.3	Page for France (EN 12186)	104

9.3.1	Relevant French legislation/regulations for gas pressure regulating installations on service lines to which EN 12186 is applicable.....	104
9.3.2	More restrictive requirements in EN 12186.....	105
9.4	Page for Germany (EN 12186).....	105
9.4.1	Relevant German legislation/regulations for gas pressure regulating stations for transmission and distribution to which EN 12186 is applicable	105
9.4.2	More restrictive requirements in German legislation/regulations.....	108
9.5	Page for Greece (EN 12186).....	108
9.5.1	Relevant Greek legislation/regulations for gas pressure regulating stations for transmission and distribution to which EN 12186 is applicable	108
9.6	Page for Hungary (EN 12186)	108
9.6.1	Relevant Hungarian legislation/regulations for gas pressure regulating stations for transmission and distribution to which EN 12186 is applicable	108
9.6.2	More restrictive requirements in Hungarian legislation/regulations	109
9.7	Page for Ireland (EN 12186).....	109
9.7.1	Relevant Irish legislation/regulations for gas pressure regulating stations for transmission and distribution to which EN 12186 is applicable	109
9.7.2	More restrictive requirements in (specify country/ nationality) legislation/regulations	109
9.8	Page for Italy (EN 12186).....	110
9.8.1	Relevant Italian legislation/regulations for gas pressure regulating stations for transmission and distribution to which EN 12186 is applicable	110
9.8.2	More restrictive requirements in Italian legislation/regulations.....	111
9.9	Page for the Netherlands (EN 12186)	112
9.9.1	Relevant Dutch legislation/regulations for gas pressure regulating stations for transmission and distribution to which EN 12186 is applicable	112
9.9.2	More restrictive requirements in (specify country/ nationality) legislation/regulations	113
9.10	Page for Sweden (EN 12186)	113
9.10.1	Relevant Swedish legislation/regulations for gas pressure regulating stations for transmission and distribution to to which EN 12186 is applicable	113
9.10.2	More restrictive requirements in Swedish legislation/regulations.....	113
9.11	Page for Spain (EN 12186).....	114
9.11.1	Relevant Spanish legislation/regulations for gas pressure regulating stations for transmission and distribution to to which EN 12186 is applicable	114
9.11.2	More restrictive requirements in Spanish legislation/regulations	115
9.12	Page for UK	116
10	Relevant national legislation/ regulation for Gas pressure regulating installations on service lines to which EN 12279 is applicable.....	117
10.1	Page for Austria (EN 12279)	117
10.1.1	Relevant Austrian legislation/ regulation for Gas pressure regulating installations on service lines to which EN 12279 is applicable.....	117
10.1.2	More restrictive requirements in Austrian legislation/regulations.....	118
10.2	Page for Finland (EN 12279)	118
10.2.1	Relevant Finnish legislation/regulations for gas pressure regulating installations on service lines to which EN 12279 is applicable.....	118
10.2.2	More restrictive requirements in Finnish legislation/regulations	119
10.3	Page for France (EN 12279).....	119
10.3.1	Relevant French legislation/regulations for gas pressure regulating installations on service lines to which EN 12279 is applicable.....	119
10.3.2	More restrictive requirements in French legislation/regulations	120
10.4	Page for Germany (EN 12279)	121
10.4.1	Relevant German legislation/regulations for gas pressure regulating installations on service lines to which EN 12279 is applicable.....	121
10.4.2	More restrictive requirements in German legislation/regulations.....	122
10.5	Page for Greece (EN 12279).....	123
10.5.1	Relevant Greek legislation/regulations for gas pressure regulating installations on service lines to which EN 12279 is applicable.....	123

CEN/TR 13737-2:2014 (E)

Foreword

This document (CEN/TR 13737-2:2014) has been prepared by Technical Committee CEN/TC 234 "Gas Infrastructure", the secretariat of which is held by DIN.

This document supersedes CEN/TR 13737:2001.

CEN/TR 13737:2001 has been split into two parts:

- Part 1 "General" containing a description how to use functional standards, specifically CEN/TC 234 standards, in relation to existing legislation/regulation and more detailed codes of practices/technical rules.
- Part 2 "National pages related to CEN/TC 234 standards" containing information about the existing national legislation/regulation, codes of practice and technical rules in relation to the CEN/TC 234 standards..

Since 2001 some new CEN/TC 234 standards have been published. The extent of this CEN Technical Report has been adapted accordingly.

Introduction

At the start of the elaboration of functional standards a way had to be found to ensure compliance with the CEN internal regulations. For this purpose CEN/TC 234 prepared a "Position Paper - Acceptance of CEN/TC 234 Standards" (CEN/TC 234 Doc N 432:1997) which was endorsed by CEN/BT Resolution C14/1997. This Position Paper is incorporated in CEN/TR 13737-1.

The general relation between EN Standards and national standards and/or regulations is defined by CEN Internal regulations, as well as the application of European standards not implemented one-to-one. Both parts of this CEN technical report support the specific implementation of the CEN/TC 234 standards in the CEN member countries.

In its functional standards, CEN/TC 234 establishes common safety principles to design, construct, operate and maintain safe and reliable gas infrastructure systems. The detail to comply with these principles is left to recognised national documents in support of national legislation. In the event of conflicts in terms of more restrictive requirements in the national legislation/regulation with the requirements of CEN/TC 234 standards the national legislation/regulation take precedence as illustrated in this part of CEN/TR 13737.

NOTE 1 The level of details of the CEN/TC 234 reflects the currently possible consensus.

In this CEN Technical Report national legislation/regulations in CEN Member countries are listed. CEN members established so-called national pages for each CEN/TC 234 standard. The list of CEN/TC 234 standards with titles is given in Clause 2.

The responsibility for availability and content of the national pages is assumed by the individual CEN member.

Although the CEN/TC 234 standards refer to CR 13737:2000 (or later editions) it should be emphasised that the latest available versions of CEN/TR 13737 parts 1 and 2 are valid.

NOTE 2 This CEN Technical Report gives the current situation at the date of publication. Considering that national legislation/regulations may have changed in the countries involved since that date it is up to individuals to check whether the information is still accurate.

The listing of legislation/regulations comprises all CEN/TC 234 standards. The structure of the document is following the numeric order of the reference numbers of the given standards.

The following table shows the cross-references between the CEN/TC 234 standards to facilitate the use of this document.

CEN/TR 13737-2:2014 (E)

NOTE 3 Due to the informative character, CEN/TR 16395 and CEN/TR 16388 are not subject to this CEN Technical Report.

1 Scope

This Technical Report contains, for each country affected, a national page where the relevant national legislation/regulations for the field of gas infrastructure are listed. The national page can further contain the relevant national standards and/or codes of practice and national bodies which can act as further sources of information, if an interested party needs further guidance.

The national page can, if necessary, indicate any requirements in the national legislation/regulations that are more stringent than those in the European Standards prepared by CEN/TC 234. This is done however without giving any details.

This does not apply to requirements contained in clauses that are harmonized to any new approach directive.

This Technical Report is intended to be a guideline for the national implementation of the functional European Standards elaborated by CEN/TC 234 "Gas infrastructure".

2 Normative References

The following documents, in whole or in part, are normatively referenced in this document and are indispensable for its application. For dated references, only the edition cited applies. For undated references, the latest edition of the referenced document (including any amendments) applies.
