DECLARATION

OF

SPECIFICATION

INFORMATION TECHNOLOGY -- SECURITY TECHNIQUES -- CODE OF PRACTICE FOR INFORMATION SECURITY CONTROLS

& TECHNICAL CORRIGENDA 1 & 2

AS

THE IRISH STANDARD SPECIFICATION FOR

INFORMATION TECHNOLOGY -- SECURITY TECHNIQUES -- CODE OF PRACTICE FOR INFORMATION SECURITY CONTROLS

& TECHNICAL CORRIGENDA 1 & 2

NSAI in exercise of the power conferred by section 16 (5) of the National Standards Authority of Ireland Act, 1996 (No. 28 of 1996) and with the consent of the Minister for Jobs, Enterprise and Innovation, hereby declare as follows:

- 1. This instrument may be cited as the Standard Specification (Information technology -- Security techniques -- Code of practice for information security controls & Technical Corrigenda 1 & 2) Declaration, 2016.
- 2. (1) The Specification set forth in the Schedule to this declaration is hereby declared to be the standard specification for Information technology -- Security techniques -- Code of practice for information security controls & Technical Corrigenda 1 & 2.
 - (2) The said standard specification may be cited as Irish Standard ISO/IEC 27002:2013 or as I.S. ISO/IEC 27002:2013.

Implementation Guidance

New and updated systems require thorough testing and verification during the development processes, including the preparation of a detailed schedule of activities and test inputs and expected outputs under a range of conditions. For in-house developments, such tests should initially be performed by the development team. Independent acceptance testing should then be undertaken (both for in-house and for outsourced developments) to ensure that the system works as expected and only as expected (see 14.1.1 and 14.1.9). The extent of testing should be in proportion to the importance and nature of the system.
